THE WEATHER

Showers and thunder storms probably tonight and Thursday. Cooler Thur. in north and west portions. Southwest winds.

VOLUME XVIII — THE CLEARFIELD PROGRESS, CLEARFIELD, PA., WEDNESDAY EVENING, JULY 16, 1924. — NUMBER 166

OWEN D. YOUNG IS GIVEN A BIG JOB BY REPARATIONS BODY

By DAVID M. CHURCH
I. N. S. Staff Correspondent

London, July 16.—Owen D. Young, of the United States will be appointed "Reparation Agent" with power to arbitrate all disputes between the Allies and Germany, it was learned officially today. Young, it was stated, had indicated he will accept the appointment.

The appointment of Young hs been agreed to by the Allied premiers. The appointment however, will be made by the Reparations Commission and not by the Allied Conference on the Dawes plan which opened here today.

This announcement opened the conference most auspiciously and was hailed by the Allied diplomats as practically insuring the success of the conference which for a time was threatened with failure by the differences rising between England and France.

Demonstrate Practical Night Flying By Staying Aloft For Eight Hours

New York, July 16 (INS.)—In a demonstration to show the practicability and safety of night flying, Lieut James F. Hitchison, pilot, and master Sergeant C. Kilhoffer, remained aloft seven hours and fifty minutes in a Dh Plane last night. The flyers ascended from Mitchell Field, Long Island at 10:30 o'clock and came down at 6:30 this morning. They circled within a radius of twenty miles of the field.

Coolidge Will Be "Told" He Is The Nominee At A Ceremonial August 14th

New York, July 16 (INS.)—President Coolidge will be officially notified of his nomination for re-election at the head of the Republican ticket, Thursday night, August 14, at Memorial Continental Hall, Washington, D. C., William M. Butler, chairman of the Republican National Committee, announced here today.

The notification speech will be delivered by the Hon. Frank W. Modell, of Wyoming, chairman of the notification committee, and chairman of the recent Republican convention at Cleveland.

Charles G. Dawes, vice presidential candidate, will be officially notified at his home in Evanston, Ill., Tuesday, Aug. 19. Butler announced. The notification speech will be delivered by Hon. A. W. Jefferis, of Nebraska.

Both ceremonies will be public, and in addition radio apparatus will be installed so that both notification and acceptance speeches in each instance may be broadcast.

Formal invitations have been extended to the members of the two notification committees, to all members of the Republican National Committee, to the reception committee of the House and Republican State chairman.

Eastern headquarters of the Republican National Committee will be established immediately Butler said, at New York.

POSTOFFICE NOW IN FINE NEW QUARTERS

Postmaster Roseberry opened the Clearfield post office for business at 7 o'clock this morning in the new room in the Moose Temple on East Market street.

Patrons of the office were most favorably impressed with the new quarters and equipment, while the clerical force were tickled to death with the facilities accorded them.

Some of the box holders did a little swearing while getting "the hang" of the combinations of their boxes but all agreed it was a good move.

A whole lot of people who either didn't read last night's Progress or forgot what they did read, forgot all about the change and visited the old post office for their mail this morning.

Flyers Reach Croyden, England; Receive Hearty Welcome From British

Croyden, Eng., July 16 (INS.)—America's round the world fliers who hopped off from Paris at 11:04 o'clock this morning arrived here this afternoon. The flyers were given an enthusiastic reception by waiting people as the three ships winged their way easily to earth.

Paris, July 16. (INS.)—Led by Lt. Lowell Smith and escorted by three French military planes, the American round the world flyers hopped off from Lebourget flying field at 11:04 this morning for Croyden, England. The French planes accompanied the three American ships to the French coast.

A few minutes before the Americans took off, a giant passenger plane left the Lebourget field in the same direction. The passenger plane planned to accompany the Americans as far as London.

American embassy officials, General Strass of the French aviation servic and a throng of spectators were at the field to bid farewell to the American fliers.

MOUNT SHASTA CITY IN PATH OF FLAMES IN WESTERN FIRES

San Francisco, July 16. (INS.)—After a night of intermittent rainfall, the forest fires menacing more than a score sectors along the Pacific coast from the Canadian to the Mexican boundaries, today continued unabated, eating their way through the famous pine and red wood forests as 2,500 men battled in vain to stem the most disastrous blaze in the history of the west.

At dawn forestry officials admitted that only a miracle could save Mount Shasta City in the path of the flames in the northern section of the state from destruction. Hundreds of persons—teachers and students from the Chico State Teachers' College, loggers, tourists and campers—fought desperately throughout the night as the flames, eating their way through the towering forests of red wood, crept on toward the doomed city, but this morning the weary army was still giving ground before the fire.

In the Humbug Mountain region, six miles southwest of Yreka, the flames soaring along over a ten-mile front are sweeping everything before them, according to reports reaching here. Here two casualties have been reported but it is believed the victims will recover.

In the Santa Barbara national forest, forestry officials today declared the situation "still serious."

In the Sierra national forest, near the Nevada line, they said, the flames are still raging beyond control, with more than 2,000 acres of valuable timberland already destroyed.

Damage from the fires already has run into millions.

THURS. BALL GAME TO BE AT PHILIPSBURG INSTEAD OF HERE

There will be no baseball game at the Clearfield Park Thursday between Philipsburg and Clearfield, as had been advertised. Instead the game between the two teams will be played at Scott Field, Philipsburg, tomorrow afternoon at the usual hour.

Clearfield was scheduled to go to Philipsburg on Thursday, July 3d, but on account of the American Legion celebration at Clearfield on that date the Philipsburg management obligingly consented to tarnsfer the game to Clearfield. In return for that accommodation Clearfield agreed to play the game scheduled for Clearfield on Thursday, July 17, at Philipsburg. Business Manager Hershey was not apprised of this change when he took hold of the affairs of the club, hence the mixup in advertising the game for the local park.

The team will be accompanied to Philipsburg tomorrow by a large number of fans who hope to see them retain their hold on first place.

The Osceola team will meet DuBois on the totally inadequte Oklahoma grounds tomorrow afternoon.

SEVEN WINS OUT OF SEVEN STARTS FOR U. S. PUGILISTS

By SPIKE WEBB
Boxing Coach for the American Olympic Team
(Written for International News Service)

Paris, July 16 (INS.)—American boxers started off auspiciously today when Ben Rothwell, 135 pound champion, of the Pastime A. C., New York, knocked out Kellher, his Irish opponent, in the second round.

The fight was fast and furious. In the first round Rothwell knocked down Kellher consistently, out boxing the Irishman and in the second round Kellher kept boring in and Rothwell quit boxing nd began exchanging blow for blow with Kellher.

The boys slugged each other until latter was on his feet immediately Kellher knocked down Rothwell. The and proceeded to put Kellher down for the count.

Paris, July 16—Seven victories in seven starts was a good way to start the opening day for the American Boxers.

Fidel Labarbara, the Los Angeles boxer, gave the team a good start by decisively defeating Warwick, the British Isles champion, who had been heavily backed by his country.

Tripoli, the Yonkers boxer, defeated Usaveaga, the scrappy Chilean, Joe Sala outboxed Burlie, the Canadian, scoring a technical knockout in the third with a series of hard left and right hooks to the head.

Jackie Fiels met a tough Irishman in Doyle, but beat him all the way, scoring a knockdown in the first round. Jack hurt both his hands in this fight, which may affect his chances today. Hugh Haggerty justified all that was said about his punching power by knocking Switek, a good Pole, cold in the first round.

Al Mellow of Lowell, Mass., defeated Doussout regarded by most Europeans as unbeatable. Ben Funk punched his way to victory over Jones the Australian after Funk had hurt his right hand and Jones had floored him for a short count with a sweeping body blow. Only the Australian's gameness enabled him to get up for the Yale man toppled him with a right cross in the third.

It is unfortunate that both Kirby and Mulholland drew Byes in the 175 pound class because both are not to fight until Friday and both are on keen edge and "raring to go."

The British and Argentine fighters appear to be our closest rivals. Ingram of South Africa, apparently is a whirlwind.

Davis Gets Out From Under By Withdrawing From Business Firms

New York, July 16. (INS.)—John W. Davis, Democratic presidential nominee, announced today that he had resigned his partnership in the law firm of Stetson, Jennings, Russel and Davis, as general counsel to the Associated Press, as director of the U. S. Rubber Company, as director of the Atchison, Topeka and Santa Fe railroad and as director of the National Bank of Commerce.

PAYROLL ROBBER IS KILLED BY OFFICER

Rock Springs, Wyo., July 16. (INS.)—Clyde N. Fisher, coal company cashier, who disappeared yesterday with the company's payroll totalling over $6,000, and for whom airplanes, sheriffs in automobiles and cowboys on horseback had searched during the night, was shot and killed this morning by a guard at the company's mine when he resisted arrest.

N. Y. BANDITS MAKE HAUL

New York, July 1 6(INS.)—Six armed men today entered the Jewelry store of Louis Fried, subdued and bound two employes—Berthold Tag and Simon Okorn—and seized jewels valued by the firm at between $50,000 and $60,000. The bandits departed leisurely in an automobile.

Youthful Bandit, 17, Is Shot To Death In His First Banditry Attempt

Chicago, July 16. (INS.)—Frank Zietz, 17, bandit for an hour, is dead today, killed while he and a companion, armed with his brand new gun, were awaiting their first victim.

A bartender who became suspicious of the boys when he saw the butt of the gun protruding from Frank's pocket while they were making a purchase in his saloon, was responsible for their downfall.

He notified police who came to the scene, and ordered the boys to halt. The bandit recruit laughed, ran a few steps and turning, whipped out his gun and fired two shots. Five service pistols, in the hands of Chicago's bandit squad, spat fire in answer and Zeitz dropped to the sidewalk, dead, five bullet wounds in his body.

His companion, hands raised above his head, surrendered. He said he was John Krajci, 17. Zietz, he said, had received the gun yesterday and last night had proposed a hold up trip "to get some easy money." After some protest, he said, he agreed to take part in the escapade.

DE VALERA AND ALL IRISH POLITICAL PRISONERS FREED

Dublin, July 16. (INS.)—The freedom of Eamonn de Valera, Austin Stack and other Irish political prisoners was assured today when President Cosgrave of the Irish Free State signed a warrant for the release of all such political prisoners.

The date of the effect of the general amnesty has not been determined, but it was indicated the prison gates throughout Ireland probably would swing outward this week-end or early next week.

Repulbican supporters of De Valera, however, have already complicated the situation by demanding that their leader be freed in time to open the Tailtean Oames—an honor which they demand should go to him instead of to Cosgrave. That may delay the release date.

De Valera has been in prison since last August. Stack was imprisoned in April, 1923.

OHIO POLITICIAN MISUSED U. S. MAILS

New York, July 16 (INS.)—Charged with using the mails to defraud, Harry Newman, Ohio politician and one of the managers of the Cox-for-President headquarters here during the Democratic convention, today was reported out of the city, having been released in $5,000 bonds by Commissioner Hitchcock.

Newman was arrested on complaint of postoffice inspector Craighead, He said Newman had received scores of applications through the mails in reply to an advertisement for a sales manager familiar with the grocery and hardware business. A condition of employment at a $6,000 yearly salary, Craighead said, was that the applicant invest in stock of "Betty's Folks, Inc.," of Washington Pa. According to the complaint two persons paid for stock without receiving the high salaried positions promised.

"Betty's Folks, Inc., is said to be a defunct corporation, having been succeeded by a new company for the manufacture of brooms. Newman is alleged to have figured in the affairs of "Betty's Folks, Inc."

JUDGMENT AGAINST KING DAVID STANDS

Columbus, Ohio, July 16. (INS.)—The decision of the United States district court at Grand Rapids, Mich. granting Mr. and Mrs. John Hanse $20,000 judgment against Benj. Purnell, "king" of the House of David religious colony at Benton Harbor Mich., was affirmed here today by the United States circuit court of appeals.

The judgment was granted Hanse and his wife by the lower court in his suit against Purnell in which he alleged that Purnell obtained, through false representation, property from Hanse and his wife and their services to the colony in 1912-1920.

IRVONA YOUNG MAN MEETS A HORRIBLE DEATH IN CRUSHER

The crushed and mutilated body of James H. Giles, Jr., 25 years old, was found Monday morning at 8:45 o'clock in the coal tipple at the plant of the New York & Pennsylvania Company where he was employed. It had passed through the coal crusher and been conveyed to the top of the high tipple with a load of coal.

The young man, who was an electrician's helper, had been doing some electrical repair work on the ceiling of the coal shed. Instead of using a ladder with which to reach the overhead wires, he climbed to the top of a car of coal, which was slowly emptying into the crusher below. Mr. Giles was probably standing at one end of the car where the movement of the coal was not so perceptible, and did not realize his danger.

The coal, after passing through the crusher, is carried by a long conveyer to the top of the tipple where it is kept until required for use in the plant. Workmen in the coal tower, several hundred feet high, were first to know of the accident, when the horribly crushed body of the dead man was brought to the tipple lying in the midst of the broken coal.

Mr. Giles, who was unmarried, resided with the family of Thomas Rogers, at 428 South Jones Street. He was a former resident of Irvona, Clearfield county, where his parents, Mr. and Mrs. James H. Giles, Sr., still reeside. He is also survived by one sister, Mrs. P. N. Swauger, of Irvona, and two brothers, S. J. Giles of Lockport, and C. T. Giles, of Irvona.

—Lock Haven Express.

Public Opinion Is Only Sure Way To Peace Says Advert'si'g Man Speaker

By LUTHER A. HUSTON
I. N. S. Staff Correspondent

London, July 16.—Whether nations will live on terms of peace with one another or whether they will be drawn into new conflicts and fresh hostilities depends upon the temper of that public opinion which ultimately controls the policies of governments and diplomats, Edward Filene of Boston, said today in addressing the retail section of the International Advertising convention at Wembley.

"Democracy is the government of public opinion," said Filene. "If public opinion is to be accurately informed and free to develop without the mischievous influence of trouble makers, then we need above ll else a press that is free.

"The press can only be free thru the revenues derived from advertising. Therefore the big advertising men are playing an important part in shaping the world's peace."

The convention today was devoted largely to sectional meetings and the reading of many technical papers.

Acting Envoy

Isaburo Yoshida, newly appointed counselor and charge d' affairs of the Japanese embassy in Washington, is acting ambassador for his country in the United States now. Ambassador Masano Hanihara has returned to Tokyo on leave of absence. But in many quarters it is said he will not return, for his government, it is reported, is displeased with his work in view of the passage of the exclusion act.

23,000 World War Vets Undergoing Treatment In Government Hospitals

Washington, July 16. (INS.)—Twenty-three thousand veterans of the world war are undergoing treatment in government hospitals, Director Frank T. Hines of the Veterans Bureau announced today in making public the names of leading physicians selected to serve on the federal council on medical and hospital affairs.

This council will organize here July 22, when a program of hospital management will be mapped out for the benefit of war victims.

PREPARATIONS ARE COMPLETE FOR KLAN DAY HERE TOMORROW

According to posters which have adorned win ; ws, telephone po.s, and automobile windshields for the past two weeks, tomorrow is Klan Day for Clearfield. Beyond this intelligence and the general comment to be heard, little is known of the plans of the K. K. K. for the morrow. There has been considerable Klan activity about the vicinity for the past two weeks, the burning of the emblematic cross being almost a nightly event on the hills surrounding the city.

In addition to this outward sign there have been several strangers in our midst whom we understand have put on a vigorous membership drive in order to have a large class of initiates for the ceremony to be held in the evening.

The location of the meet is understood to be the field across from the "old narrows" near the Hogback on the Curwensville road, quite some distance from Clearfield. This field has been mowed and leveled and put in readiness to take care of the great crowd that is expected to attend from far and near. A speakers stand has been erected and nothing left undone which will make for a perfect setting for the spectacular ceremony of inducting men and women into the order. The event is advertised as an afternoon and evening function and it is expected that families of klansmen will spend the afternoon and evening there.

SENATOR WHEELER BOLTS JOHN W. DAVIS

Washington, July 16 (INS.)—Senator Burton K. Wheeler, famed Daugherty prosecutor, will bolt the Democratic ticket in November, because the standard bearer is John W. Davis, it was announced here this afternoon. He will support the candidacy of Senator Robert M. LaFollette.

Wheeler, a Democrat from Montana, was prominently mentioned at the New York convention, as a running mate for Davis. He declined the post.

In explaining his action, Wheeler declared he "could not conscientiously support a candidate who represents the house of J. P. Morgan and Company." He referred to Davis' recent legal connections with the Morgan firm.

"My own views upon the political and economic conditions of the country clash wtih those of Mr. Davis." Wheeler told International News Service. "I believe in a different economic theory of government than that supported by Davis. I cannot support in the coming campaign any candidate representing the House of Morgan".

Wheeler said he expected to "take the stump" for Senator LaFollette.

Chicago, July 16. (INS.)—Unconcealed joy reigned in LaFollette headquarters here today when the International News Service gave officials there their first knowledge of the bolt of United States Senator Burton K. Wheeler from the Democratic ticket and his announcement that the noted Daugherty investigator would support the Wisconsin Senator for the Presidency.

"Of course that is fine, but it isn't amazing," said a spokesman for Congressman Nelson, National manager, who was not in at the time ;'a lot of others will do just that thing. It was to hve been expected when the Democrats nominated John W. Davis."

FRANCIS JONES OF GLEN RICHEY WINS PRIZE SCHOLARSHIP

Francis Jones of Glen Richey, has our heartiest congratulations. Young Jones is to have the privilage of attending any college or university in the whole state of Pennsylvania and selecting any course he desires. The recipient of this wonderful prizes is a graduate of C. H. S., Class of 1924, Classical Course.

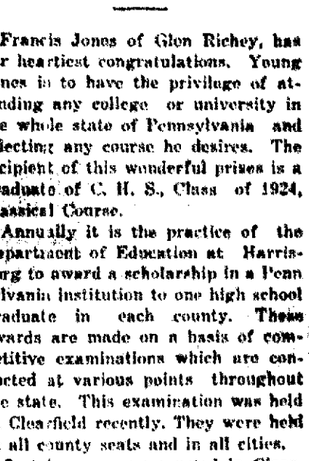
Annually it is the practice of the Department of Education at Harrisburg to award a scholarship in a Pennsylvania institution to one high school graduate in each county. These awards are made on a basis of competitive examinations which are conducted at various points throughout the state. This examination was held at Clearfield recently. They were held at all county seats and in all cities.

Just how many competed in Clearfield County we do not know as an examination was conducted at DuBois but there were nine entries here.

Jones, therefore, can be said to be the "champion" high school scholar of Clearfield County for 1924. He was a member of the famous debating squad of 1924 and took an active interest in other school activities.

His school chums will join in congratulations.

Heads Moose



William A. Marnkle of Rochester, N. Y., will be inducted into the supreme dictatorship of the Loyal Order of Moose on July 30.

Fashionable Ritz Carlton Hotel In New York May Be Padlocked For A Year

New York, July 16 (INS.)—The fashionable Ritz Carlton Hotel may be closed as a common nuisance under the Volstead law if plans in preparation today by the United States attorney's office are successful.

The Ritz Carlton is one of the most famous hotels in the country. It was last assessed by the city at more than $5,000,000.

Lyman H. Ward, assistnt U. S. Attorney, announced he would ask a permanent injunction and the closing of the hotel for one year. If Ward is successful, the Ritz Carlton will be in the same boat with the Palais Royal and many other white light restaurants closed for a year by Federal court order.

Prohibition authorities claim the hotel proper and the roof garden are under the same management; that the entire place should be closed.

Counsel for the Ritz Carlton, Edmund Durkin, said the Hotel company "never countenanced, never profited by sale of liquor" and indicated his confidence that such would be the ruling of the court, should the case come up for trial.

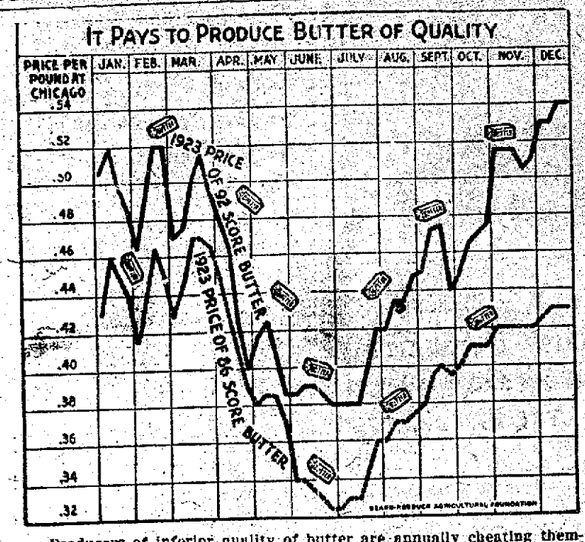
FARM LOAN INTEREST LOWER

Washington, July 16 (INS.)—The Federal Farm Loan Board today announced it had reduced the rate on its loans to co-operative marketing associations from 5½ to 5 per cent effective immediately.

These loans are made through the intermediate credit banks which in the last year have loaned $50,000,000 to approximately 200,000 farmers.

Miss Lizzie McDermott of New York is spending her vacation at the home of her cousin, Frank Ueltz, of Clearfield county.

NEWSPAPERARCHIVE®



Producers of inferior quality of butter are annually cheating themselves out of millions of dollars. The price of butter depends primarily upon its quality and condition. The smallest defect may result in the loss of a sale or a tremendous cut in price. According to a study made by the Sears-Roebuck Agricultural Foundation during 1923 the marginal difference in the price of high and low quality butter on the Chicago market amounted at times to as much as 11 cents per pound between 86 and 92 score.

In January of 1923, 86 score butter was selling at 43 cents while the 92 score was going at 50½ cents. During January, February and March the marginal difference of the high quality over the low varied from 4 to 7½ cents. Through April butter prices dropped, the margin narrowing until the difference was less than a cent. This condition was only temporary. In May the price range begins to widen until in November and December quality prices were from ten to eleven cents over prices for inferior butter.

High quality, uniformity of product, with good marketing methods, are required to secure a high net return. In determining the final score of butter, flavor, body, color, salt and package are rated separately, with the following number of points given to each: flavor, 45; body, 25; color, 15; salt, 10, and package 5.

WATER CARNIVAL FOR JUNIORS

A special swimming meet for the Junior members at the Y. M. C. A. Thursday morning at eleven o'clock, will be held during the swimming hour at which one hundred boys will be eligible to compete in diving for form, swimming under water, different strokes for form, biggest splash, etc., at which several prizes will be given. Boys from the ages 12 to 14 are welcome to visit the gallery and enjoy the Carnival.

A Second Look.

"Jimmy's a coward, that's what he is! Last night he leaned toward me, put his arms around me, drew my face close and started to kiss me, and then didn't! He is a coward!" "Oh, my dear, maybe you misjudge him. Are you sure you were sitting with your back to the light, so it wouldn't shine in your face?"

CONCERT AT PARK TOMORROW EVENING

The American Legion Band will give another of their delightful open air concerts at the Clearfield Park tomorrow evening starting at 7:30. This is the second of the series and the program will be inclusive.

The band will be under the direction of Assistant Director Bridge and his selections of numbers are varied enough to suit everyone. Classical, popular songs and jazz music will be played by this wonderful local organization.

Did Leonardo Name America?

It has been generally supposed that Martin Waldseemueller of St. Die first applied the name America to the western continent. But now Professor Harrington asserts that Leonard da Vinci gave the name on a map made in 1514.

Sport News

REEDSVILLE JUNIOR TRIM WITMER PARK BOYS

In the Junior Boy's Playground Ball League yesterday the Witmer Juniors journeyed to Reedsville and received a good trimming in which runs and hits were as thick as flies around a molasses barrel with the Reedsville boys always well in the lead. This makes the winners unbeatable so far, but one team that has not played them assure us that it will be a different story on Friday afternoon.

League Standing	W	L	Ave.
Reedsville Jrs.	2	0	1.000
West Side	1	0	1.000
Witmer Park Jrs.	0	1	.000
East End Jrs.	2	2	.000

The schedule for the remainder of July is as follows:

Thurs. morn. Witmer Park at West S.
Fri. morn. Reedsville at West Side.
Fri. aft. noon, East End at Witmer P.
July 21, aft. Reedsville at Witmer P.
July 22, morn. West Side at East End
July 23, aft. West Side at Reedsville.
July 24, morn Witmer Park at East E.
July 25, morn. East End at Reedsville
July 25, aft. West Side at Witmer P.
July 28, aft. Witmer Park at Reedsvle
July 29, morn. East End at West Side.
July 30, aft. Reedsville at West Side.
July 31, aft. East End at Witmer P.
Aug. 1, morn, Witmer Park at W Side
Aug. 1, aft. Reedsville at East End.

Playground ball is becoming so popular that the West Side girls have formed a team and no doubt a girl's league will be formed between the playgrounds.

The baby grand slide at Reedsville has been repaired and the youngest are enjoying themselves to the limit. The attendance at all the playgrounds is growing daily as the weather becomes enjoyable.

OFFICIAL VOLLEY BALL RULES

The teams shall be composed of six men in all official games.

No substitute can take the place of a player until a whistle has been blown declaring the ball dead. Such players shall report at once to the referee.

One court occupied by a team shall be called their own court; that occupied by their opponents, the opponents' court.

Serving order in which the players are to serve shall be called the "order."

The shifting of men in position shall be called "Rotation."

The putting of the ball in play by an eligible man, by batting it into the opponents' court in any direction with one or both hands while standing with both feet behind the back line of the court, is a service.

"Point" shall be called when team receiving fails to return the ball legally to the opopnents' court.

When the ball touches any surface or part of the ground outside of court the ball is out of bounds.

The ball is dead when the Referee's whistle blows.

Any player committing any act which, in the opinion of the Referee, tends to stop or slow down the play shall be considered as delaying the game.

When the ball pauses for a moment in the hand or arms of a player and is not batted it shall be considered as catching or holding the ball.

A player striking the ball more than two times consecutively shall be considered as dribbling the ball.

(Concluded in tomorrow's edition.)

Tribute to the Poorer Classes.

The women of the poorer classes make sacrifices and run risks, and bear privations, and exercise patience and kindness to a degree that the world never knows of, and would scarcely believe, even if it did.—Samuel Smiles.

Much Time Lost Through Illness.

Some 42,000,000 men and women gainfully employed in this country lose on an average more than eight days each annually from illness disabilities.

HEAL SKIN DISEASES

The Rose Co., No. 1 volley ball team have been practicing faithfully at the High School Playground and will go to Reedsville tonight to play off the tie in the friendly contest between the two teams, each having won three games; visitors are invited to be present tonight at 6:30 and enjoy the enthusiastic and excellent contest in volley ball at the Reedsville playground.

Ideal "B[illegible]n Man.

A look of intelligence in man is what regularity of features is in woman; it is a style of beauty to which the most vain may aspire.—La Bruyere.

Most Valuable Ore.

Radium, the element worth about $3,000,000 an ounce, is obtained from carnolite ore found in Colorado and Utah. Besides radium, carnolite contains potash, uranium and vanadium.

OH! MY BACK!

Aching Backs Make Life Miserable For Many Clearfield People.

It isn't right to suffer day in and day out with dull, unceasing backache. Or be utterly miserable with sharp stabs of pain whenever you stoop or lift. But chances are you will suffer these tormenting aches and pains as long as your weakened kidneys are neglected. You may have headaches, too, spells of dizziness and urinary disorders. Then use Doan's Pills—a stimulant diuretic to the kidneys. Experiences of Clearfield people prove the merit of Doan's.

Mrs. W. W. Summers, 708 Dorcy St., says: "There was a dull, bearing down pain across my kidneys and when I stooped, a severe pain seized me in my back and it was hard to straighten. I noticed the backache the most in the morning. Headaches made me miserable and my kidneys acted irregularly. Doan's Pills from Woodward & McPherson's Drug Store drove away the backache and headaches and regulated my kidneys."

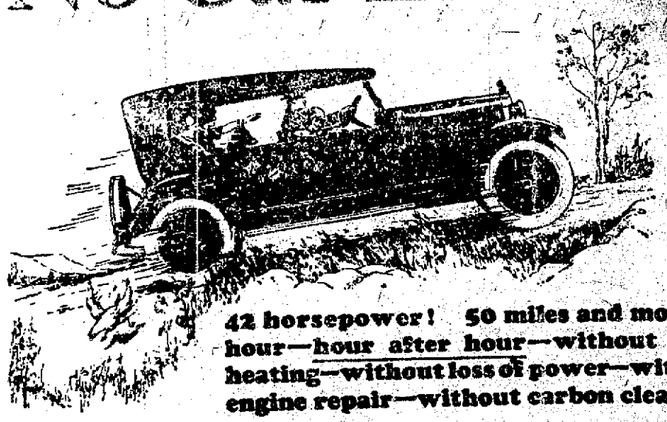
Williams Auto Sales Co.

No Car Like It!



42 horsepower! 50 miles and more an hour—hour after hour—without overheating—without loss of power—without engine repair—without carbon cleaning!

And at the end of a long sustained high speed, your motor will be cooler, will need less water than any similar sized poppet-valve engine;—will need no repair, no tinkering with unseated valves.

This engine's power curve keeps climbing *up* while the power of a poppet-valve car is dropping off. Furthermore, the Willys-Knight is entirely free from those engine repairs which make up 50% of the upkeep cost of practically all poppet-valve cars. It has no cams—no springs—to get out of order. A car you can keep season after season. Take a ride today.

ODDS AND ENDS AND THINGS

By J. D. C.

Women had a big time in these United States getting her "rights," but when they were finally showered upon her by the 19th Amendment to the Federal Constitution and the right to vote was hers the trouble was far from ending. If you doubt this statement, ask the tax collector. You don't have to be particular as to tax collectors; ask any one of them anywhere. They have all had the same experience. Women do love to vote; that is some of them. They don't know why, or much about the game, but they will not pay taxes. That is and has been demonstrated in every district in the land. They just wont do it; so there, and that is all there is to it.

The last logislature passed a law allowing tax collectors to seize the body of delinquent female taxables and incarcerate them in jail until the tax was paid. The lawmakers no doubt figured that the average man would even pay his wife's taxes rather than get along without his cook, housekeeper and companion. Some do, but not many of them thus far.

The newspapers on Monday carried a story to the effect that a Scotch Hill county tax collector became exasperated at the refusal of a woman taxable to liquidate her tax bill and, seizing her body, placed her in jail. She remained there two days before friend husband came to her relief and paid the bill. No sooner had the word got about over the foxy collector's bailiwick than every man got busy and before the week was out ever ywoman in town had a tax receipt for her 1923 taxes.

There is "blood on the moon" up at Janesville, Gulich township, Clearfield county. The tax collector has a long list of delinquent women taxables on his list and last week went before 'Squire Ruffner at Madera and made information against fifty of them for non-payment of taxes. The whole half hundred were in a fair way to be sent to the Clearfield county jail, when the husbands of two of the women came down to Clearfield and laid the matter before Attorney W. A. Hagerty. Mr. Hagerty very promptly informed them the Justice of the Peace had no jurisdiction in the matter and the proceeding was thereupon illegal. The word was taken back to Madera and when found to be a correct exposition of the law, hostilities ceased for the present.

Under the law the warrant of the collector, given him with his tax duplicate each year, authorizes and empowers him to seize the person of any delinquent taxable upon failure or repeated failure to pay his or her taxes. The Gulich township collector says he will do just that before the week is out if the women do not pay their taxes in the meantime.

Warden McClure at the jail is now doing the worrying. As he now has a company of 45 bootleggers and moonshiners filling every nook and cranny of the jail, he is up in the air as to what he will do with the expected army of Gulich township women. He has already petitioned the County Commissioners for tents, and if they come will erect a tented city on the lawn at the jail in which to house his fair prisoners.

The women now have their perfect "rights," but some of their "lefts" are not so much.

* * *

We are approaching the season at which those charged with thet safety of our great forests feel the most apprehension. Examining the statistics concerning the cause of fires, the one great danger to the forests and the wild life that they protect, we can easily see the reeason for this. We can also realize the cause for much bitterness on the part of the forest service toward careless individuals.

Figures based on fires in national forests where the collection of data was possible, shows the cause of fires to be as follows:

Fires caused by sparks from locomotives	5.98%
Fires caused by lightning	36.44%
Fires caused by incendiarism	13.65%
Fires caused by brush burning	3.70%
Fires caused by camp fires	13.22%
Fires caused by smokers	17.44%
Miscellaneous	7.15%

Exactly 55.16% of all the fires could be charged to carelessness and that is exactly 55.16% too many. When you stop to think of the irreparable consequences, the millions of dollars worth of lumber destroyed, the game supplies wiped out, etc., it certainly is time to pause and think.—Sportsman's Digest.

Announcing that more than 85 per cent of the inland and coastal waters of the United States are polluted and constitute a grave menace to the health of the nation, Will F. Dilg, president of the Izaak Walton League of America, today declared war on manufacturers and cities using the rivers and lakes in their vicinity as a depository for waste.

This league is composed of more than 100,000 American sportsmen with chapters in 42 states of the union has instituted a lively campaign against further contamination of the countrys water, not only from a standpoint of fish and game conservation but of a vital safeguard against disease.

With thousands o fpeople now leaving for their annual respite from the cities, comes the league's warning against bathing in or drinking from lakes and streams into which sewage, garbage and chemical waste from factories are discharged.

"The Izaak Walton League of America," says the report, "is not selfishly interested in the saving of our streams for fish and game."

Making Sure.

The mistress felt anxious about the mushrooms. "You haven't forgotten," she said, "to put a silver quarter in with the mushrooms to prove that they aren't poisonous?" "No, indeed ma'am," said the cook, "an' to make certain, I put in a 50-cent piece."

DAILY RADIO PROGRAM

(Compiled by United Press.)

THURSDAY, JULY 17.

Thursday's Best Features.

WEAF, NEW YORK.—Vincent Lopez Orchestra.
WFI, PHILADELPHIA.—Vessella's Band.
WGY, SCHENECTADY.—Liberty Bell Chorus.
CKAC, MONTREAL.—Evening program.

Chrysler Six Equipped With Special Balloons

The Brougham

Step into a balloon-equipped Chrysler Six and note how easily the steering wheel turns. Pivotal steering is the chief reason. The steering king pins are inclined at an angle, and turn on ball thrust bearings. Chrysler Six fenders are wider, in order to care for the increased width of balloon tires.

The Touring,	$1395	The Phaeton,	$1495
The Roadster,	1625	The Sedan,	1725
The Brougham,	1895	The Imperial,	1995

All prices f. o. b. Detroit; tax extra.

The Chrysler Six

Pronounced as though spelled, Crysler

Special six-ply, high-speed balloon tires—for which the Chrysler Six is designed from the ground up—are standard equipment on this car.

Chrysler Six pivotal steering, its special design of spring construction, its extra-wide fenders, all contribute to the use of balloon tires with complete success.

The higher speed capacity of the Chrysler Six demands more than the ordinary balloon tire, so a special six-ply, balloon has now been perfected. These Chrysler special high-speed balloons assure the owner of even greater riding ease and safety, with no greater tire service expense, and mileage records the equal of cord tires.

We are pleased to extend the convenience of time-payments. Ask about Chrysler's attractive plans.

Stop that Eczema!

AMAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with eczema, and you have used skin applications without number, make a test yourself, on yourself with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no unproven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Why can a ballplayer pitch a curve?

—because he throws the ball in such a way that it revolves against the air on one side. The resulting friction keeps pushing the ball towards the other side. After a game, sport or work

Make Your Kitchen Save Food, Time, Labor, Fuel, With A

DUPLEX ELECTRIC COOKER

Cooking in the Duplex Electric Cooker is the most economical way known. This cooker will start economizing the first day you use it.

First—economy of effort. You simply prepare your food and place it in the cooker. Connect it to any convenient outlet and let it stay until steam comes freely from the steam vent. Turn off your current and the fireless principle will complete the cooking. Think of the time and labor this saves you. You can go away and leave your food without fear that it will burn or overcook. It eliminates standing over a hot kitchen stove and spending most of the day in the kitchen.

And think of the fuel you save. It only takes a few minutes to heat the cooker—and that is all the electricity you need to use. This saving alone will pay for your cooker in a very short time.

Added to all these savings is the food economy. The Duplex Electric conserves all the juices and flavors. There is very little evaporation, and thus the food is not exposed to any outside elements. It is possible to cook less expensive cuts of meat and other foods just as deliciously as the most expensive ones in your Duplex Electric Cooker.

TRAFFIC COMMISSIONERS

Several good-sized American cities have created a new public office. They have "traffic commissioners" who devote all their time to the problem of street traffic. They study the situation, suggest broad policies and carry them out, under authority provided by the city council. It is found that great improvement results from this specialized machinery. This is timely recognition of the importance to which the multiplication of motor cars and the growth of population have brought city traffic. Streets and sidewalks are crowded, and the crowds of people and cars are confused, beyond anything that the last generation could have imagined. The business section of a small town may now have traffic jams as great as those characteristic of great cities 20 years ago. A country cross-roads may be jammed as badly as the heart of a city. Everywhere there is the necessity, imperative and growing, of keeping vehicles and people moving and at the same time safeguarding pedestrians and drivers.

It is a great engineering problem, a great police problem and a great psychological problem. Small towns which would not find it practicable to establish a separate department for this purpose might nevertheless do well to establish general traffic supervision as a special function of some appropriate official.

UNBARRED IMMIGRANTS

Most Americans have overlooked the fact that while the rest of the world is restricted to immigration quotas, there are no bars put up against our nearest neighbors, Canada and Mexico. As a result, it may be expected that in the next 12 months we shall have more immigration from these two countries than from all the rest of the world together.

It will not be an entirely new thing. Canadians and Mexicans have been coming in very freely. From Canada last year the United States received 180,000, which alone is more than the net gain from Europe. From Mexico last year came nearly 50,000 officially noted and counted, and no doubt many thousands more unobserved by the immigration officers. The movement is likely to be more pronounced in this and succeeding years, as the movement slackens from other countries.

The omission of these neighbors from the quota list is not accidental. Congress does not care to erect barriers on our northern and southern borders like those set up in our seaboard ports of entry.

Canadians are welcomed because they fit easily and naturally into the political and economic life of the country. They are, with few exceptions, of similar blood to the dominant American strain. They are mostly good farmers and skilled workers.

Mexicans, on the other hand, while far more difficult to assimilate politically and socially, make good workmen for unskilled jobs, and help to supply the lack of crude labor which is felt more and more as the European supply is cut off.

With good times, the States may draw heavily from both countries. Canada, at least, would rather have a quota, to keep her people at home.

Income Collection Service

In connection with our Special Deposit Department, many of our customers have us collect their income, clipping coupons as they come due and crediting them to their accounts.

If you find it easy to overlook the maturity of coupons, you will appreciate this service.

It is entirely free. You are invited to make use of our Special Deposit Department.

Elephant More Intelligent Than Dog.

Some idea of an elephant's capacities may be reached by comparing him with the dog, with whose intelligence we are familiar. Making allowance for the dog's "opportunities" under man's training, science has come to doubt whether the most exceptionally intelligent dog possesses comprehensive faculties equal to those of the adult wild elephant fresh from the jungle.

Ozone Seasons Wood.

A French scientist, M. Otto, has discovered that all kinds of wood can be seasoned rapidly and efficiently by means of ozone. He has established a factory in Paris, and another in Italy, where various species of wood are being treated by the new process. In two weeks freshly-cut timber is ready for the cabinetmaker, and is as dry as if it had been exposed to the air for years.

Refrigeration.

Refrigeration is a science that finds many uses in mining. It overcomes two great difficulties: The influx of water in porous formations and the heat of deep mines. By freezing the water in porous formations and the earth to great depths with cool air they can penetrate the strata and by supplying themselves their snakes through watering surrounding earth, miners can carry on their work.

These Hard to Find.

Habenarias are a genus of o— of which about eighteen specie— natives of the eastern states, ac— ture Magazine. They are part— low, moist ground, so that the— must be willing to risk a wet— search of our most forbidding— and swamps. The blossoms are— quisitely dainty that the finder— them is well worth all the trouble a— discomfort.

Harlequin Style.

Towards the close of the Eighteenth century furniture makers designed pieces which might have a double or triple use. This was called harlequin furniture. Beds of today that are transformed into mantels or pianos, tables which become dressers, chairs that are stepladders are surely examples of harlequin style.

Peculiar Combinations.

An English woman recently wrote to a newspaper saying that she was born A. Mann (Alice Mann). She married a Mr. Husband, and so became A. Husband. He died and she married again, this time a Mr. Malden. Becoming a widow for a second time, she concludes that, though born A. Mann, she will die A. Malden.

Progress Editorials for Women

BEAUTY IN THE SCHOOL ROOM

By FLORENCE DAVIES

Page the ladies of Mr. Ziegfield's chorus.

School teachers wanted.

No longer will comic artists depict the school ma'am as a lanky, serious creature, wearing gaiters and goggles. By no means, in the future she is to be hired for her beauty.

For teachers, says a Child Expert who spoke in Boston recently, should be pretty. Children are peculiary susceptible to appearances. They are invariably attracted to beauty, and repelled by ugliness. They are great hero worshippers and they want to be proud of their heroines. Besides, the homely school teacher creates a disagreeable association with the whole idea of going to school. Many a child who hates school, might love it if the teahcer were a Marilyn Miller instead of a Miss Sour-face.

But, teachers, unfortunately, can't order up their features to suit their taste. They are like the rest of mortals in that respect, and have to make the best of what they draw.

And that's just it, says Miss Lucy Oppen, who is responsible for the theory that all teachers should be pretty. That's just it; All they have to do is to make the best of what they have. This demand that all teachers be beautiful is not as unfair as it sounds, she points out. They don't demand the impossible. Children themselves aren't particular as to shape of a mouth or the exact line of a nose. But they sense a kind of inward beauty. They are quick to feel that willt-o-be-lovely, which a woman with the plainest features may cultivatee.

Clothes make a lot of difference and a happy expression adds a kind of radiance that will pass for beauty in any company. Freshness, charm, attractive attire, a lovely coiffure, a well-kept skin, and radiant cheerfulness—this is the kind of beauty which may be had by taking thought, and this is all that our child expert asks.

"I have known teachers themselves to be transformed by this very gospel of beauty," says Miss Oppen. "A teeacher would be apparently of the dull, fretful, sharp-voiced, flabby, ineffectual type. Once she set about it to make herself attractive to her children in this way, she became actually beautiful—that is, beautiful with those underlying radiant qualities which children are quick to see and feel." It isn't merely the doll-like type of beauty that is needed, it seems, which must be a great relief to some of us, who otherwise would have to decide right now to forego all thoughts of ever entering the teaching profession if that were the case.

And while we are on the subject of children and beauty, let's pass on to the mother. Secretly, children adore pretty mothers. As a rule they are too loyal to admit, even to themselves, that mothers are ever anything but beautiful. But they are quick to notice when mother wears a becoming frock, and when she looks as well as other mothers. If more women realized this they would not be so quick to exclaim, with that martyred air which women delight, "Oh, anything will do for me. I never think about myself."

If you don't, mother, you'd better begin. You owe that much to your children, if not to yourself.

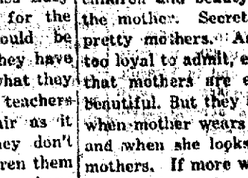
Daily Sentence Sermon.

The easiest person in the world to fool is yourself.—Milwaukee Sentinel.

How Locomotive Uses Coal.

A ton of coal will run an ordinary locomotive from 35 to 60 miles.

A new cut to burn slow



—and cool in pipes

But an old secret method for taste—

"Wellman's Method" of 1870

Rich *and* fragrant

In foil package to reduce price to 10¢

Granger Rough Cut

A Pointer on Tobacco—

The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the "cut". Granger is "rough cut" to smoke slow and cool—cut for pipes, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

Soy Bean Hay Is Gaining in Favor

Big Increase Noted in Acreage and Production—Gain in Yield.

(Prepared by the United States Department of Agriculture.)

The soy bean is getting more attention every year as a hay crop, says the United States Department of Agriculture. Just how fast this use of the crop is increasing is shown by figures on production for the years 1922 and 1923. In nineteen states for which the figures are available, the total acreage devoted to soy bean hay was 509,000 and by 1923 it had increased to 794,000. Total production in 1922 was 782,000 tons while in the succeeding year it was 1,155,000 tons. Not only was there an increase in the total production but in the yield per acre, the increase being from 1.39 to 1.45 tons per acre.

Growth of Crop for Hay.

Alabama was the only state in which there was a decrease. In the other eighteen the crop either held its own or increased. A number of states in the Middle West show the greatest growth of this crop for hay purposes, but there are other states in various sections where it is an important feeding factor. In Illinois during the two years in question the acreage increased from 70,000 to 137,000; in Indiana from 29,000 to 95,000; in Missouri from 33,000 to 68,000; in Iowa from 7,000 to 10,000; in Ohio from 30,000 to 50,000, and in Wisconsin from 11,000 to 14,000. North Carolina increased its acreage from 65,000 to 70,000; Tennessee from 125,000 to 130,000; Kentucky produced 38,000 both years.

That the crop is grown for hay in the East as well as in the Middle West and South is shown by figures for Maryland which increased its acreage from 10,000 to 12,000; Virginia which increased from 40,000 to 48,000; West Virginia which grew 5,000 both years; and Delaware which grew 3,000 acres in both seasons.

The figures compiled by the department for the last two crops seem to show that slightly better yields of soy beans have been obtained in the eastern states. In 1922 the average for Maryland was two tons and for 1923 1½ tons to the acre. For Delaware it was 1.75 and 1.4 for these years. In Virginia the average was 1.8 for both years and West Virginia 1.7. The average for the country for both years was under 1½ tons, the lowest yields being in Georgia and South Carolina.

Soy bean hay, if cut at the right time, is of high feeding value and appetizing to all kinds of live stock. It is high in protein and takes the place of a considerable quantity of high-priced concentrate. Another excellent feature of the crop is that it may be sown in an emergency when some other hay crop has failed to winter well. It can be cut any time from the setting of the seed until the leaves begin to turn yellow, but the maximum returns can be made by cutting it at a time when the pods are well formed. Perhaps a better quality of hay will be produced by earlier cutting but the yield will not be so great. Late cutting produces a hay too fibrous to be the best kind of feed.

Easy to Cure Beans.

Those who have made cowpea hay will find that it is considerably easier to cure soy beans. Cutting may begin in the morning as soon as the dew is off and continued the rest of the day. One of the important things to remember is that hay should be raked up after the leaves have become wilted but before they are dry, otherwise many of them will break off and there will be a heavy loss of one of the most valuable parts of the crop. The hay may be left in windrows for a day or so, if the weather is suitable, and then placed in small cocks or bunches. For making good soy bean hay about 5 or 6 days of good curing weather is sufficient. This length of time is necessary because practically all of the curing is done in the cock, which if well constructed will prevent damage by rain and snow. When weather conditions are unfavorable many farmers use frames on which to pile the freshly cut hay so that extra good ventilation is provided. The frames are usually 3 or 4-sided pyramids made of boards or poles, 3 to 6 feet long, fastened together at the top and held at the bottom by cross pieces. When such frames are used it is possible to pile the hay on them immediately after it is cut and produce a good quality of feed.

Several Effective Ways to Destroy Field Pests

There are several effective means of destroying the pests which burrow in the fields. Poisoning with strychnine, trapping, flooding and fumigating with carbon bisulphide are popular methods. The mole is difficult to destroy in any other manner than by trapping. Poison is the most effective means of destroying the rodents. Flooding, of course, is only possible in certain cases. Carbon bisulphide is used frequently but in the case of moles considerable gas is lost where the runway is near the surface of the ground, and the efficiency of the method is seriously impaired. There is also some difficulty in using carbon bisulphide due to the fact that the runways are not all on the same level and the gas will remain in the lowest portions, not rising to fill the runway where it approaches the surface of the ground.

United States Roads Outdo World.

The highways of this nation total more miles than nearly all the rest of the world's put together—2,500,000.

The AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

WANTS HIS MARKER PAINTED BLOOD RED

Requesting that World war veterans annually repaint his monument in blood red "to act as a reminder of the blood shed by Minnesota men," John Bowe, Legionnaire and soldier of fortune of Canby, Minn., has made his last will and testament.

Bowe, whose service under colors of several nations has brought him one of the most unique fighting records in World war history, now past fifty-five, is awaiting that last call for service beyond. In the meantime he has not forgotten the sacrifices of his comrades, and by continuation of service in the American Legion has earned the admiration of the fellows for his fighting spirit.

His early life was one of hardship. In 1888 he went to Pierre, S. D., to be in at the opening of Indian lands (which did not open) and had to trek back to Deadwood on foot to secure employment. The next year he rode 500 miles through the Dakotas to Montana, on to Spokane, California, Utah, Old Mexico; saw him in what were nearly pioneer days. Service in the navy with Spain followed this adventurous career.

Then abroad. Bowe visited Portugal, Spain, Italy, Morocco, Algiers, Egypt, Turkey, Palestine and Greece. He saw Cuba, Panama, Venezuela, Martinique and other Central American countries with odd and most daring of experiences practically everywhere he visited.

He is believed to be the first Minnesotan to get into the World war; in January of 1915 he enlisted in the French Foreign Legion. There he served for one cent a day until October of that year when he was wounded in the Champaigne attack near Ferme Navarin. He won the Serbian medal for bravery, the French Croix De Guerre, the fourragere of the Legion of Honor, a Congressional

John Bowe.

Medal of Honor from President McKinley, and service medals for his service in the Spanish-American war and the Philippine insurrection.

Invalided home from his French service in 1916, Bowe found he had been "sold out" for nonpayment of a mortgage on his home and was forced to start all over again. But this did not daunt him, so he set about making a new home for his wife and family, and "carrying on" for them.

Bowe was an American in the category of one who served with allied forces, and for whom special provision was made that they might enter the American Legion. He was present at the first department convention of Minnesota Legionnaires, and was chairman of the congressional district committee. Following this service Bowe went about the state organizing posts, about forty coming under his jurisdiction.

When the national convention was held in Minneapolis Bowe was named to the eligibility committee and was a member of the sub-committee which prepared the present clause setting qualifications for membership. He was a delegate to the second national convention in Cleveland, O. One year he was candidate for the post of department commander, but was defeated. At the last department convention, held in Faribault, he served on the resolutions committee.

Legion Opens Night Schools

In combating illiteracy in the state, one of the first moves of Georgia members of the American Legion is the support of night schools, where those unable to read or write can study. Bolding post of the Legion in Gainesville has opened such a school, which will have the services of instructors of the Gainesville high school.

Though Something Depends on Quality

Where no counsel is the people fall, but in the multitude of counsellors there is safety.—Solomon.

Curwensville's Own Column

A number of nurses employed at Clearfield hospital took a day off from duty and held a picnic at the Park yesterday. They were a jolly bunch and enjoyed their outing on the banks of the old West Branch.

The athletic program for Labor Day is about completed and will be given to the public in a few days. There will be sports galore for old and young. As the celebration will be conducted under auspices of the organization known as The Yellow Dogs, a social fraternity is an ample guarantee that the long list of sports will be carried out in full.

Bob Wolf met a real bear on the highway while coming home from Philipsburg Sunday night. He does not tell how "he and his auto killed the bear" but how hard he stepped on the gas.

Last evening the Mens' Baptist Fellowship League held a banquet in the basement of the Baptist church. Rev. H. A. Baker, of DuBois, was present and spoke to the assemblage. There was a goodly number present outside of the membership. An appetizing luncheon was served before the meeting came to a close.

Thursday evening has been designed at the Masonic Temple as "Ladies Night." Some two hundred invitations has already been accepted and filed. The Ladies Aid Society of the Methodist church will furnish and serve the refreshments. McKinley's orchestra has been secured to furnish the instrumental music, and a male quartette from DuBois will entertain with vocal music. There will also be dancing and card tables provided for those who enjoy that amusement. This occasion of sociability is under the personal supervision of Keystone Forest No. 93, Tall Cedars of Lebanon, and promises to be the leading social event of the season.

Mr. and Mrs. Scott Ammerman are pleased over the advent of a young son who entered over their threshold on Tuesday morning. As this is the first child to be born to them it is considered a trifle more than double value to the parents.

Three young men of the Bloomington section were before 'Squire Dale yesterday afternoon. One, David Price, by name, was the worst offender, he having broken into the home of Martha Bloom and attempted to thrash one of her boarders, Wm Punchois, beating him up rather severely by fists and dinner plates. He was charged with aggravated assault and also assault with intent to kill. He entered bail in the sum of $1000 for a court trial. His companions, Messrs Rowles and Brown, were not implicated so deeply having not entered the fight or the house but were charged with disorderly conduct while partially intoxicated and each suffered a fine of $5.00 and costs of prosecution.

Mr. and Mrs. Harry Rhodes, Mr. and Mrs. Belotus Strickland and Mr. and Mrs. Bert Kelly, were in Clarion over the Sabbath visiting with their daughters, each having one who is a student at the Normal school.

H. P. Fullerton has repainted his residence and Boyd Robinson has built a substantial front porch at his home. Both reside on Bloomington avenue.

Ned Bloom and wife came in from New Bethlehem and spent Saturday and Sunday with relatives. On their return George R. Fleming, father of Mrs. Bloom, went with them for a two week's vacation.

George Leech, a son of a former townsman, Jack Leech, is here for a week's visit, he coming from Warren O., where the Leech family now reside.

Mrs. Roberts and two children who live in West Virginia, are guests of Mr. and Mrs. W. L. Dale this week.

ATTEMPT TO SPEED UP GOVT. OIL SUITS

Washington, July 16. (INS.)—Atlee Pomerene, Democratic member of the Government's special oil council, left Washington this afternoon for Los Angeles, Calif., where he will seek to expedite hearings in the civil suit instituted against the Pan-American Petroleum Company to recover the Elk Hill oil reserves.

Pomerene will request that hearings be set early in September.

Before his departure, Pomerene, together with his associate, Owen J. Roberts, conferred with President Coolidge.

Mr. and Mrs. Horace E. Olson, of Chicago, motored to Clearfield yesterday and are guests at the home of Mr. and Mrs. Harry Halden.

Mr. and Mrs. Beauford Carson and three children of 1006 Bronson street, accompanied by Mrs. Lyman Gamble, all of Watertown, New York, motored here and are visiting Mrs. L. J. Carson of 430 Bigler avenue, and other relatives. Mr. Carson is a former Clearfield boy having left here about thirteen years ago.

Mr. and Mrs. Fred A. Walther, who spent the past week with Mr. and Mrs. W. J. Sacket and other local relatives, returned to their home in Harrisburg yesterday.

Sharks Vary in Savagery.

The savagery of sharks varies oddly in different seas. On the Atlantic coast of Florida bathing is perfectly safe, yet on the gulf coast it is dangerous in the extreme. The worst sharks are those found off Tampico, in Mexico.

Milk Is The Business Man's Ideal Lunch-Time Food

It doesn't need an expert to tell any business man that if he overloads his stomach—even partakes of a hearty meal—at lunch-time, he is not as keen mentally as he would like to be until nearly three o'clock. Perhaps you have experienced this and wondered why. There are certain functions of your digestive system put in operation the minute your stomach is overloaded which tend to cut down your mental keenness.

The ideal thing to eat at lunch-time is a shredded wheat biscuit and a plenteous amount of milk. There is a combination in the wheat and the milk which will give your body plenty of energy without disturbing your mind and then, if you wish, add a light custard for dessert.

You will find that this will keep you alert every business minute and that the dull, listless feeling you have been experiencing after a hearty mid-day meal, will disappear.

AND SEE THAT THE MILK ON THE WHEAT BISCUIT AND IN THE CUSTARD IS OUR RICH, SAFE AND SURE PASTEURIZED MILK.

Constituting
THE QUALITY BAKERY

At the Court House, Clearfield, Pa., Friday August 8th, 1924, at 1:30 p. m.

J. T. Murphy, Trustee of the Quality Bakery, duly constituted as such Trustee by deed of Orin C. Barger and wife and William E. Spackman and wife dated November 22, 1923, and recorded in Clearfield county in Deed Book 266, page 216, will offer at public sale at the front door of the Court House in Clearfield, Pa., on Friday, August 8, 1924, at 1:30 p. m., all the real and personal property constituting the Quality Bakery and consisting of the following:

1. All those two adjoining lots of ground situate in the Third Ward of the Borough of Clearfield, County of Clearfield, and State of Pennsylvania, known in the original plan of West Clearfield as lots No. 4 and No. 5, bounded and described as follows: On the East by River Street; on the South by an alley; on the West by an alley and on the North by an alley. Being one hundred ten (110) feet front on River Street and two hundred (200) feet in depth, and being the same premises which were conveyed to Orin C. Barger and William E. Spackman by Matthew Savage by deed dated September 9, 1922, recorded in Clearfield County in Deed Book 258, page 413, and which by said Orin C. Barger and William E. Spackman were conveyed to J. T. Murphy, Trustee, by the deed of trust beefore mentioned.

Said lots being sold subject to the following liens: Mortgage of Orin C. Barger and William E. Spackman to Matthew Savage, now owned by H. L. Forcey, dated September 9, 1922, recorded in Mortgage Book 72, page 178, the principal amount due thereon being the sum of $1900.00; Mechanic's Lien in favor of Effie Ferguson, Administratrix of Paul Ferguson, in the principal sum of $400.00, the same being entered in the Prothonotary's Office in Clearfield County on Mechanic's Lien Docket No. 6, page 428; Mortgage of Orin C. Barger and William E. Spackman to J. T. Murphy dated September 21, 1923 and recorded in Mortgage Book 76, page 143, for the principal som of $7700.00.

The said real estate has erected thereon one concrete block building and includes one oven and furnace.

2. All the interest of the lessee in and to a certain lease for the lot of ground situate on Nichols Street in the Borough of Clearfield, Pa., on which is now erected the store building used in the business of said Quality Bakery, said lease having been made by Hartswick Smith to Orin C. Barger and William E. Spackman the 13th day of October, 1920, for a period of five years from November 1, 1920.

3. All the personal property of every kind whatsoever used in the business of said Quality Bakery and constituting a part thereof; including particularly one building erected on the leased premises above mentioned, one oven, one wrapping machine, one sifter, scales and mixer, one bread moulder, baskets, bread pans, troughs, racks, roll divider, work bench, cake mixer, adding machine, safe, store fixtures and other miscellaneous personal property; there being bailment leases outstanding as to various items of said personal property and only the interest of the lessee in such items being offered for sale.

4. All the accounts receivable, bills receivable, cases in action, rights and credits of every kind and nature whatsoever of the said Quality Bakery whether the same shall have accrued prior to or since the delivery of the deed of trust to J. T. Murphy, Trustee.

This sale is being made by virtue of the power vested in the Trustee by the deed of trust above mentioned, and further by virtue of the consent of fifty per cent. of the total number and amount of the creditors secured by said trust.

The above four items shall be offered for sale separately in the first instance and bids taken thereon and held, whereupon the entire property shall be offered as a whole and the same shall be sold, either by the items above mentioned or as a whole to the highest responsible bidder of bidders.

The terms of the sale shall be twenty-five (25) per cent. cash at the time of sale and the balance upon delivery of conveyances of said property.

J. T. MURPHY
Trustee of the
Quality Bakery. Clearfield, Pa.

Very few women who boss their husbands let them know it.

If everybody had beautiful hands how would work get done?

Never quarrel before company and two's company.

If barber shop mirrors talked to beauty parlor mirrors they would say the same things.

Men who object to hair in their food should always marry bald-headed women.

Enemies are friends you made the mistake of losing.

A man is usually considered ignorant because he doesn't happen to know the same things you happen to know.

A model husband is one who is as nice to his wife in private as he is before company.

Poor little movie stars, several of them haven't been married again yet.

You can't expect people to be cheerful at breakfast with their faces looking as if they had been slept in.

Wonder if a divorce ever resulted from a man finding another man's hair on his rolling pin.

Snakes have longer wheel bases than any other known living animal.

You can tell a bungalow from a garage by remembering the garages have the largest doors.

It is easy to keep a secret until you get a chance to tell it.

Straw hats are top pieces that look bad by the time they feel good.

Expecting nothing is an excellent way to get nothing.

A lot of folks would like to have a map of the road to wisdom.

The man who gets by on his looks isn't going very far.

It's a natural mistake for a housewife to blame a baking failure on the cook book.

Sad thing about feeling bad is you can't leave and get away from it.

A lot of autos have all of the regular attachments, plus a sheriff's.

The girl who buys a bathing suit often wants the least she can get for her money.

Three cheers for the filling station that furnishes water and gas with out mixing them.

Be careful what you pin your faith to or you will get stuck.

It is a wise young fellow who dances with the chaperon.

Many men claim they tell their wives everything, when they don't even know it.

Marriage Licenses

Aubrey Shaw, of Rosebud, and Olive Smeal of Glen Hope.

Harold W. Hildebrand, of Birmingham, and Mirrel I. Bonsall, of Spruce Creek.

Archibald Muirhead, of Winburne, and Esther Sandstrom, of Lanse.

Site of Bauer Crime Is Scene of Another Even Worse Than The First

New York, July 16. (INS.)—The entire police force of Staten Island and more than 100 detectives from police headquarters here today were combing the woods and swamps in Staten Island in search of the fiend who brutally assaulted and murdered eight-year-old Francis P. McDonald, of Port Richmond, a policeman's son, and then buried his mangled little body under a pile of underbrush.

The body was found not less than a mile away from the spot in the Chelsea woods where Mrs. Maude A. Bauer was murdered last spring. Harry L. Hoffman, moving picture operator, is serving a 20-year sentence in Sing Sing for the crime.

The body had been stripped of most of his clothing. The straps of his overalls had been used to strangle him. Deep gashes ran the length of his face and other scratches were found on his arms and body.

Imprints around the spot where his body was discovered by three Boy Scouts indicated he battled for his life.

The boy had been missing since Monday afternoon and police had been scouring the woods in search of him.

George Stearns, a neighbor, told police that he had seen an elderly man muttering to himself, follow the lad toward the spot where the body was found.

Police were interviewing inmates of the poor farm not far from the scene of the murder.

WILL BE BURIED AT BIGLER

Abram Hummel, of Philipsburg, died at his home in that place Tuesday morning. The funeral will be held Friday afternoon at 1:30 o'clock and interment will be made at Bigler cemetery.

LEGION COMMANDER

"A 'ROUGH and ready' Irishman with a merry twinkle in his eye—

"So old-fashioned that he even wears suspenders—

"A man who talks straight out in a simple, homey manner that proves his bucolic upraising—

"That's the kind of a man the Legion now has in John R. Quinn, its national commander.

"Legionnaires who have the good fortune to get into close personal touch with this big, manly Californian who directs the affairs of the great organization of former soldiers in the entire world, are charmed by John R. Quinn's simplicity, his roughness and the innate honesty and doggedness of purpose which radiates from his person."—Douglas County (Nebraska) Legionnaire.

DR. ORLANDO PETTY CITED FOR BRAVERY

Unusual heroism by a Philadelphia physician who remained for hours under fire in his dressing station during the battle of Belleau Wood and then carried a wounded officer on whom he had been operating to safety when the station was destroyed, has been rewarded with an award of the Congressional Medal of Honor by the government.

The man who is thus signally honored, says the Philadelphia Ledger, is Capt. Orlando H. Petty, attached during the war to the Naval Medical corps.

Doctor Petty enlisted in the naval reserves, four days before the United States entered the war. He left with the Fifth regiment marines. With the "Devil Dogs," he saw fierce fighting from June, 1918, until late in the summer. On June 11 he performed the deed which won for him the medal.

Under a heavy shell fire, he worked in his dressing station until it literally fell in flames over his head, when he escaped to a place of safety with the wounded officer on his back.

He was severely gassed, and was in the hospital many days, but he mastered, long before having entirely recovered, upon returning to duty. He was cited for bravery because of the action.

Doctor Petty was the only member of the Medical Reserve corps during the war to receive a Congressional Medal of Honor. He also was awarded the Distinguished Service Cross of the United States and the Croix de Guerre with palm, of France.

Recently he was appointed physician in charge of the department of metabolism of the Philadelphia General hospital and elected to the professorship of diseases of metabolism in the graduate school of medicine of the University of Pennsylvania.

Doctor Petty is a graduate of Franklin college and the Jefferson Medical college. For several years he was pathologist and director of laboratories at the Germantown hospital. He is a member of the Pennsylvania society, Sons of the Revolution, of the Aesculapian and Manufacturers' clubs, and is a fellow of the College of Physicians of Philadelphia, and of the American College of Physicians.

Legion Boys Condemn School Board's Action

Action taken by the Macon (Ga.) city board of education in barring "Young" Stribling, a professional prize fighter, from completing high school work has been condemned by American Legion members in that city.

Stribling attended Lanier high school, but was dropped by the board because of his professional athletics. He has appeared under the auspices of a number of Legion posts in benefit boxing shows.

Disabled Veterans' Clinic

A disabled veterans' clinic for Cedar Rapids, Ia., has been sought by members of the American Legion in that city, according to post officials. Under the recommendations of the Legion, the clinic would be in the main for examination of tuberculous patients, in order to make available the services of a competent staff of sanitarium physicians located in the city.

To Help Sell Land

The American Legion in Umatilla county, Oregon, has offered to join with commercial organizations in the sale of lands to colonize the Teel irrigation district, if the project is approved by the state. A proposal has been made before the state irrigation and securities commissions to sell the land in farm units of 80 acres. The total tract is 10,500 acres.

To Help New Legion Home

A dollar from each member of the Woman's Relief corps in Blackwell, Okla., will be given annually to the American Legion. The local post is erecting a new home and the women's organization decided to make this donation in order to help the fund. One hundred and fifty members of the corps contributed to the fund.

Essay Contest

"The American Legion as a Community Asset" is the subject of an essay contest authorized in North Adams, Mass., by the Frank R. Stetson post of the American Legion. Special cash prizes have been announced for the best essay submitted by school children of high and grammar schools.

PREMIER MacDONALD OKEYS DAWES PLAN IN OPENING SPEECH

London, July 16. (INS.)—The London Allied Conference, the fifteenth since the treaty of Versailles was drawn, opened at 11:30 this morning in Downing street, and after a two hour session adjourned to allow three committees to draw up reports on various phases of the Dawes report for which the present conference will attempt to devise a practical plan of operation.

Representatives of the ten nations participating made short addresses of optimistic tone. Premier Ramsay MacDonald of England was elected chairman of the meeting and opened with a plea that the conference abandon political considerations for business-like methods.

"The Dawes plan is business-like and not political," he said. "I appeal to you to follow a similar course."

DEFENSE WILL MAKE NO FREEDOM PLEA FOR FRANK KILLERS

Chicago, July 15.—In a frank statement of pleas, Clarence Darrow, chief of defense counsel for Nathan Leopold, Jr., and Richard Loeb confessed slayers of Robert Franks, declared today "that no attempt will be made to free the two defendants" at the coming trial.

"Boys charged with such a crime as this," continued Mr. Darrow, "should not be allowed to go free for fear they might commit another similar crime. There seems to have been no earthly reason for it. The 'excitment" motive has made this an unusual case which requires unusual procedure."

"This case," said Darrow in his startling pronouncement as spokesman for the boys, "has been likened to the Thaw case. It may be in some respects but it is different in the great point of disposition of the defendants. Strenuous efforts, that were successful after many years, were continually made to give Harry Thaw his liberty. In this case no effort will be made to free these boys.

"In fact, if we are successful in our efforts to have the case settled by a sanity hearing, there will be no effort to acquit them."

AMERICAN CONSUL REFUSED WARSHIP

Montevideo, Uruguay, July 16 (INS)—The American Consul at Santos, Brazil, reported threatened by the revolutionary forces, has asked his government to send warship there immediately to protect American lives and property? According to private messages reaching this city from Santos. The situation is regarded as most serious, it is said.

Washington, July 16 (INS.)—The State Department today turned down an appeal from the American consul at Santos, Brzil, for American warships to protect foreign interests in the Brazilian revolution. The appeal was forwarded here by the American Embassy at Rio de Janeiro without approval.

Embassy officials reported that foreign life and property in Brazil were being given "adequate protection" and that there existed no need for the presence of American warships, the department indicated, however, it would order to the South American Republic when their presence was justified.

ABRAHAM HUMMEL DIES FROM STROKE

Seized with a pain in the head at his home on North Second street, Philipsburg nout 11 o'clock Monday night, Abraham Hummel expired at 5 o'clock Tuesday morning. The attending physician diagnosed his illness, which so swiftly proved fatal, as a stroke of apoplexy.

All day Monday he worked at the farm owned by Dr. W. B. Henderson, where he has been employed for the last three weeks. Returning from his work he ate a hearty supper and made no complaint of feeling unwell, though he said he was tired.

Mr. Hummel was born near Bigler Feb. 12, 1848. He was the son of Mr. and Mrs. Conrad Hummel. For years he worked at the brick plants along the Tyrone and Clearfield branch of the Pennsylvania railroad. About 18 months ago he and his family came to Philipsburg to live.

The deceased was twice married and was the father of ten children, nine sons and one daughter, and all of them are living, along with his second wife, who was Miss Laura Curley. The names of the children and the places where they live are as follows: Alton, of Curwensville; Emery, of Clearfield; Joseph, of Troy; Tobin, of Wallaceton; Collins, of Morgan Run; Charles, of Curwensville; William, of Blue Ball; Patrick, of Philipsburg; Preston, at home, and Mrs. Charles Singer, of Pleasant Hill. There are 17 grandchildren.

After going to Philipsburg, Mr. Hummel united with the Church of Christ. Though not so well known in Philipsburg because of his comparatively brief residence here, he had many acquaintances and friends in the Bigler region. He was industrious and honest.

The funeral will be held Friday afternoon at 1:30 o'clock. Interment at Bigler.

Cultivate a Note Book.

Carry a note book and pencil in your hand bag, and have one or more handy in the house. Then you may accumulate a store of information on every subject of feminine interest. Little items that we hear have a way of escaping our memory.

Observation of Oldest Inhabitant.

The old-fashioned way of courting in a hammock has one advantage over the modern motor courtships. When there was a breakdown you didn't have to walk ten miles back home.—Cincinnati Enquirer.

Acme of "Nothing to Worry About."

What are a few thousand hairs more or less, except to persons whose hairs have been numbered? Professors counted the hairs on the heads of an entire class of men and women in Munich university, a recent dispatch from Berlin stated. The arduous research disclosed that the men had from 40,000 to 50,000 hairs; the women from 60,000 to 70,000. Counting at the rate of one hair a second, it would take one professor more than 19 hours to number 70,000.

We don't recommend the taste, but you can eat Blue Devil Cleanser without injury.

PENNSY-GRAMS

Pittsburgh.—Mrs. Cow is out on bail and Patrolman Hugh Lane is suffering bruises today as the result of the cow resisting the officer when he wanted to "pinch" her for wandering the streets. Bossie, according to Lane "has a mean hoof" and planted it on Hugh's rear guard, then she followed it up with a swat on the policeman's nose with her tail. The cow was taken to the city's stables and her owner released her on bail.

Pittsburgh. — Joseph B. Clancey, alias Joseph B. Snyder, 21, said to live at 1243 Allison avenue, Philadelphia, is being held here today by police as a suspicious person.

Clancey, according to police, has served in several penitentiaries in the country and is said to be a clever bad check writer. He told police that he came here to make one last cleanup before "going straight" because he was in love with a Pittsburghe girl and intended marrying her.

Pittsburgh.—Police Superintendent Edward J. Brophy has ordered a big shakeup in the local police department. Twenty-eight lieutenants, 38 patrolmen and 4 matrons were transferred today "for the good of the service" according to Brophy.

Middletown.—"Ouch" quoth a member of the state police as he stumbled over a box in a corn field on the farm of John Huss. The box covered an underground chamber containing a 50-gallon still, 60 gallons of moonshine, and 350 gallons of mash. Huss and his son were arrested.

Middletown.—Eighteen quarts of alleged whiskey were found carefully hidden under a bed in a large hotel here. Roy Cain, owner of the hotel, is held.

Pittsburgh, Pa., July 16. (INS.)—Dominick Argenteria, 28, was crushed to death and two other employes of the Jones and Laughlin Steel Corporation were injured at Eliza Furnace today when a sheet of steel slipped from its hoistings and pinned the men beneath it.

Home-Made Floor Oil.

One part boiled linseed oil thinned with three parts turpentine makes a good floor oil, says the Scientific American; while one part light, highly refined engine oil combined with four parts kerosene gives results similar to commercial kinds.

In a Wilderness.

Leave the floor of the osemite valley and you are in the wilderness; there are a thousand square miles of wild high Sierra country in the park, says the American Forestry Magazine. It is the virgin highland region, much of it almost unexplored, that is now calling hundreds of the more adventuresome tourists to the trails of the back country.

THREE BURNED WHEN FIRE DESTROYS HOME

Altoona, Pa., July 16. (INS.)—Three persons were burned, one seriously, when the home of Charles McClellan at Glanierville, near here, was burned to the ground today.

McClellan, his wife, and six children saved themselves by jumping from the second story window. Mrs. McClelland, her daughter Virginia, aged 5, and Harry McClellan, 45, their cousin, received burns. The latter is said to be in a serious condition.

Fish as Personal Decoration.

The natives of Nauru in the Pacific make use of fish for personal adornment on many occasions, especially for the "fish dance." The fish in that locality are very brilliant and are tied in great numbers about the person of the natives. Forty or 50 fishes are sometimes strung about each native. After use in this manner they are eaten.

Record Mastodon Tusk.

The largest mastodon tusk ever discovered was found by workmen 40 feet below the surface of the earth in a gravel pit at Cincinnati—weight 75 pounds; seven feet from tip to tip.

JORDAN'S

Clover Failure Is Due to Many Causes

Ailments of Crop Discussed in Bulletin Just Issued.

(Prepared by the United States Department of Agriculture.)

That the decline in red-clover culture is no myth becomes abundantly evident when one reads the agricultural literature of the past 40 years. Letters from farmers to the agricultural press and articles by farmers and by the experiment station workers in the press all express concern regarding this condition and offer various reasons and remedies. The United States Department of Agriculture has been alive to the necessity of solving the problem of clover failure, and has set forth its observations as to the causes as well as suggestions for more favorable results, in Farmers' Bulletin 1365, Clover Failure, just issued.

Causes of clover failure, says the department, are to be sought in improper soil conditions, in diseases, in the use of nonadaptable seed or in improper methods of seeding, and in the use of harmful nurse crops. Improper soil conditions result from constant cultivation and the consequent loss of lime, phosphates, potash and organic matter, making the soil unsuited to the growth of clover. Such conditions can be remedied by applying the elements lacking in a field and by working in manure and other forms of organic matter.

In some cases clover failure is due to diseases, and then a disease-resistant variety must be used if available, or some other legume substituted for red clover. Alsike clover, hairy vetch or annual summer legumes, such as soy beans, should be used when for any reason land that needs lime cannot be economically limed. When red clover fails on land well supplied with lime, sweet clover can often be substituted to advantage.

A copy of the bulletin may be secured as long as the supply lasts, from the United States Department of Agriculture, Washington, D. C.

FARM FACTS

Seed time is here.

* * *

Reforestation today is preparation for tomorrow.

* * *

The first essential for success with red clover is: Good northern grown seed.

* * *

High-priced seed is not always good seed, but low-priced seed can never be good seed.

* * *

Wise Nature meant leaves and other vegetation to decay and enrich the soil. Why be foolish and burn it?

* * *

Hubam clover has some advantage in that it will probably make a larger growth the first year than does the biennial white sweet clover.

Keeping Fountain Pens Fit.

If your fountain pen does not work well, it is probably clogged with old ink. Pens should be washed out in warm water every now and then to remove the little bits of solid matter that are apt to settle on the nib and in the feed tubes. Never use ordinary writing ink in a fountain pen. Use an ink made specially for the purpose.

Musical Taste.

A walking tourist espied an old man seated in the doorway of a cottage, fiddling utterly regardless of time and tune. Stopping for a while to listen in amusement, the tourist at last asked: "When do you tune your violin?" "I don't," was the reply. "It don't sound right if I tune it."

Softer Than Rose Leaves.

According to a Greek writer, effeminate dandies in ancient Greece sometimes slept on beds of sponge.

Gossip for Tonight's Tea Table

Mrs Thomas March was taken very sick on Monday night at the home of Mrs. F. G. Betts. She is feeling some better today.

Miss Carrie Dinges spent the week-end at her home at Peale.

Miss Phoebe Newpher was in Mahaffey last week visiting Miss Roxie Fryer a former employe at Jordan's Hotel.

Mr. and Mrs. W. K. Lull, Mr. and Mrs. Harnish, Mr. and Mrs. Lawrence Dewalt and grandson, all of Irvona, were in Clearfield yesterday attending the funeral of G. W. Dewalt

Rowles Kelso, of Hyde City, who has been laid up with a sprained ankle is back at work again.

Mrs. Annie Etzweiler returned last Sundy from Akron, Ohio, where she has been on a visit to her daughter, Mrs. Cecil Lutz. Mrs. Etzweiler's son drove out for her on Saturday.

Mr. and Mrs. Ruddick and little daughter started yesterday morning to motor to their home in Indianapolis. Miss Mary Stock accompanied them to their home.

Harry Alexander, of DuBois, attended the funeral of his cousin, G. W. Dewalt yesterday.

Genevieve Mohr returned from a visit to Cumberland, Md. She arrived in time to help with the moving of the post office to its new home.

Catherine Ritz spent yesterday at her home in Grampian.

Jim Nevling, Roland Wright and Billie Davis started yesterday on a hike to Tioga county. They expect to take three days to the journey. Telephone reports from them last evening reported several substantial 'lifts' by motorists going their way. They expect to visit a few days in Westfield before starting on the return trip.

Mrs. D. L. Krebs who has been visiting her son David, and family, in Chicago ,arrived home today for the summer.

Misses Larue and Amelia Chorpenning left yesterday for Niagara Falls and Toronto. On their return Miss LaRue will stop at Bradford, Pa., to attend an institute.

Prof. and Mrs. Geo. E. Zerfoss and daughter Charlotte have returned after attending the National Educational Association at Washington, D. C. On the trip home they toured thro Virginia, Maryland and southwestern Pennsylvania, touching all points of interest on the way.

Mrs. William Van Alen and Mrs. Boyd McCullough entertained Monday evening at bridge in honor of their guest, Miss Elizabeth Vance at the home of their father, W. C. Miller on W. Front street.

Mr. and Mrs. Fred Eisenhauer of Munson are visiting at the home of Wm. Eisenhauer this week.

Mr. and Mrs. W. M. Neff left today to spend some time visiting in Johnstown, Tarentum and Indiana.

The Tuesday night Bridge Club met last evening at the country club.

Joseph Malloy, who has been here on a visit to his parents, returned last Sunday to Oranye, N. J. Albert Shugerts accompnied him.

Mrs. John Buchanan has returned from a visit to Monument.

Mrs. Elmer Warner is entertaining her bridge club tonight.

Miss Ethel Jedlis of Detroit, is spending her vacation by visiting Mrs S. J. Chapel on Daisy street.

Mrs. H. B Scott, Mrs. George Scott, Mrs. W. C. Berklinser, Miss Elizabeth Kingston and Jimmie Scott of Philipsburg were all in Clearfield yesterday.

Didn't Know His Brother

"My brother got so bad with stomach and liver trouble that when I saw him after a year I didn't know him. He was emaciated and yellow as a pumpkin and was often in great pain. He couldn't have lived long the way he was going. Doctors and medicine gave him no relief. I picked up a little booklet on Mayr's Wonderful Remedy, which he said described his case perfectly. The first dose of it gave him great relief and in a month he was good as ever." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

At all Druggists.

Cresson, Pa., July 14—George W. Dewalt, 70 years old, of Fairfield, died here suddenly of a heart attack at the home of his nephew, Ralph A. Dewalt, in Gallitzin road. Dewalt was visiting his nephew when stricken. He was a native of Clearfield county. Dewalt's wife died fourteen years ago and all his children passed away several years ago. He is survived by three grandchildren, Mrs. Irving Shaw of Clearfield; Cecelia Dewalt, of Irvona, and Gordon Dewalt, of Clearfield, and by two sisters, Mrs. W. L. Mull of Glen Hope and Mrs. Catherine Wright, of Akron, Ohio. Funeral services were held at the home of his late nephew Tuesday morning at 10 o'clock. Rev. D. M. Lyle, pastor of the Cresson Presbyterian church, officiated. The body will then be taken overland to Clearfield and on arrival of Dewalt's relatives buried in the Hillcrest cemetery.

SPECIAL SWIMMING HOURS AT Y. M. C. A.

Several temporary changes are made at this time during the Bible Study Institute, so that all the boy and girl members can enjoy the swimming classes at the Y. M. C. A. The Junior boys class will be at eleven o'clock on Monday, Wednesday and Thursdays. The Junior Girls' class will hold forth at eleven o'clock on Tuesdays and Fridays.

EDITOR LANDS A PLUM

Harrisurg, July 15—The appointment of Frank E. oWod, a Sayre editor as Director of Publications and Deputy Secretary of the Department of Property Supply was announced today. Wood succeeds A. Nevin Detrich of Philadelphia, who resigned last January.

Time to Save Money!

Some folks subscribe for a farm paper, a woman's magazine, a radio publication and a fiction magazine. But

The COUNTRY GENTLEMAN

for only $1.00 a year—less than two cents a week—combines *all four features* that those folks are paying at least $6.00 for. *It's four magazines in one!*

Big farm news of the United States and the world at large; national and state politics; new ideas on selling at a profit; cooperative organization; *money-saving crop methods!*

A woman's department that is *the only woman's weekly;* how the country can be made a better place to live in; a regular radio department; serial stories that will sell later for $2.00 in book form, by such authors as Zane Grey and Joseph C. Lincoln. A corking good short story every week!

May I send your order now? I'd be glad to.

You Can't Get More For a Dollar!

KEYSTONE ICE CREAM

Remark of John Adams Dix.

John Adams Dix, American statesman and general, made the remark, "If anyone attempts to haul down the American flag, shoot him on the spot." This was a part of a telegram sent from Washington Jan. 29, 1861, ordering the arrest, at New Orleans of Captain Breshwood, the commander of the revenue cutter McClennand, which it was feared he would turn over to the rebels.

Nerves Beginning Early.

Mary's little brother had broken doll's house and done other annoying things, until at last she gave way to her exasperation and slapped him. Asked to explain her conduct, she said, "Well, he's been getting on my temper all day till my nerves just jumped at him."—Boston Transcript.

OWEN D. YOUNG IS GIVEN A BIG JOB BY REPARATIONS BODY

By DAVID M. CHURCH
I. N. S. Staff Correspondent

London, July 16.—Owen D. Young, of the United States will be appointed "Reparation Agent" with power to arbitrate all disputes between the Allies and Germany, it was learned officially today. Young, it was stated, had indicated he will accept the appointment.

The appointment of Young hs been agreed to by the Allied premiers. The appointment however, will be made by the Reparations Commission and not by the Allied Conference on the Dawes plan which opened here today.

This announcement opened the conference most auspiciously and was hailed by the Allied diplomats as practically insuring the success of the conference which for a time was threatened with failure by the differences rising between England and France.

Demonstrate Practical Night Flying By Staying Aloft For Eight Hours

New York, July 16 (INS.)—In a demonstration to show the practicability and safety of night flying, Lieut James F. Hitchison, pilot, and master Sergeant C. Kilhoffer, remained aloft seven hours and fifty minutes in a Dh Plane last night. The flyers ascended from Mitchell Field, Long Island at 10:30 o'clock and came down at 6:30 this morning. They circled within a radius of twenty miles of the field.

Coolidge Will Be "Told" He Is The Nominee At A Ceremonial August 14th

New York, July 16 (INS.)—President Coolidge will be officially notified of his nomination for re-election at the head of the Republican ticket, Thursday night, August 14, at Memorial Continental Hall, Washington. D. C., William M. Butler, chairman of the Republican National Committee, announced here today.

The notification speech will be delivered by the Hon. Frank W. Modell, of Wyoming, chairman of the notification committee, and chairman of the recent Republican convention at Cleveland.

Charles G. Dawes, vice presidential candidate, will be officially notified at his home in Evanston, Ill., Tuesday, Aug. 19. Butler announced. The notification speech will be delivered by Hon. A. W. Jefferis, of Nebraska.

Both ceremonies will be public, and in addition radio apparatus will be installed so that both notification and acceptance speeches in each instance may be broadcast.

Formal invitations have been extended to the members of the two notification committees, to all members of the Republican National Committee, to the reception committee of the House and Republican State chairman.

Eastern headquarters of the Republican National Committee will be established immediately Butler said, at New York.

POSTOFFICE NOW IN FINE NEW QUARTERS

Postmaster Roseberry opened the Clearfield post office for business at 7 o'clock this morning in the new room in the Moose Temple on East Market street.

Patrons of the office were most favorably impressed with the new quarters and equipment, while the clerical force were tickled to death with the facilities accorded them.

Some of the box holders did a little swearing while getting "the hang" of the combinations of their boxes but all agreed it was a good move.

A whole lot of people who either didn't read last night's Progress or forgot what they did read, forgot all about the change and visited the old post office for their mail this morning.

Flyers Reach Croyden, England; Receive Hearty Welcome From British

Croyden, Eng., July 16 (INS.)—America's round the world fliers who hopped off from Paris at 11:04 o'clock this morning arrived here this afternoon. The flyers were given an enthusiastic reception by waiting people as the three ships winged their way easily to earth.

Paris, July 16. (INS.)—Led by Lt. Lowell Smith and escorted by three French military planes, the American round the world flyers hopped off from Lebourget flying field at 11:04 this morning for Croyden, England. The French planes accompanied the three American ships to the French coast.

A few minutes before the Americans took off, a giant passenger plane left the Lebourget field in the same direction. The passenger plane planned to accompany the Americans as far as London.

American embassy officials, General Strass of the French aviation servic and a throng of spectators were at the field to bid farewell to the American fliers.

MOUNT SHASTA CITY IN PATH OF FLAMES IN WESTERN FIRES

San Francisco, July 16. (INS.)—After a night of intermittent rainfall, the forest fires menacing more than a score sectors along the Pacific coast from the Canadian to the Mexican boundaries, today continued unabated, eating their way through the famous pine and red wood forests as 2,500 men battled in vain to stem the most disastrous blaze in the history of the west.

At dawn forestry officials admitted that only a miracle could save Mount Shasta City in the path of the flames in the northern section of the state from destruction. Hundreds of persons—teachers and students from the Chico State Teachers' College, loggers, tourists and campers—fought desperately throughout the night as the flames, eating their way through the towering forests of red wood, crept on toward the doomed city, but this morning the weary army was still giving ground before the fire.

In the Humbug Mountain region, six miles southwest of Yreka, the flames soaring along over a ten-mile front are sweeping everything before them, according to reports reaching here. Here two casualties have been reported but it is believed the victims will recover.

In the Santa Barbara national forest, forestry officials today declared the situation "still serious."

In the Sierra national forest, near the Nevada line, they said, the flames are still raging beyond control, with more than 2,000 acres of valuable timberland already destroyed.

Damage from the fires already has run into millions.

THURS. BALL GAME TO BE AT PHILIPSBURG INSTEAD OF HERE

There will be no baseball game at the Clearfield Park Thursday between Philipsburg and Clearfield, as had been advertised. Instead the game between the two teams will be played at Scott Field, Philipsburg, tomorrow afternoon at the usual hour.

Clearfield was scheduled to go to Philipsburg on Thursday, July 3d, but on account of the American Legion celebration at Clearfield on that date the Philipsburg management obligingly consented to tarnsfer the game to Clearfield. In return for that accommodation Clearfield agreed to play the game scheduled for Clearfield on Thursday, July 17, at Philipsburg. Business Manager Hershey was not apprised of this change when he took hold of the affairs of the club, hence the mixup in advertising the game for the local park.

The team will be accompanied to Philipsburg tomorrow by a large number of fans who hope to see them retain their hold on first place.

The Osceola team will meet DuBois on the totally inadequte Oklahoma grounds tomorrow afternoon.

SEVEN WINS OUT OF SEVEN STARTS FOR U. S. PUGILISTS

By SPIKE WEBB
Boxing Coach for the American Olympic Team
(Written for International News Service)

Paris, July 16 (INS.)—American boxers started off auspiciously today when Ben Rothwell, 135 pound champion, of the Pastime A. C., New York, knocked out Kellher, his Irish opponent, in the second round.

The fight was fast and furious. In the first round Rothwell knocked down Kellher consistently, out boxing the Irishman and in the second round Kellher kept boring in and Rothwell quit boxing nd began exchanging blow for blow with Kellher.

The boys slugged each other until latter was on his feet immediately Kellher knocked down Rothwell. The and proceeded to put Kellher down for the count.

Paris, July 16—Seven victories in seven starts was a good way to start the opening day for the American Boxers.

Fidel Labarbara, the Los Angeles boxer, gave the team a good start by decisively defeating Warwick, the British Isles champion, who had been heavily backed by his country.

Tripoli, the Yonkers boxer, defeated Usaveaga, the scrappy Chilean, Joe Sala outboxed Burlie, the Canadian, scoring a technical knockout in the third with a series of hard left and right hooks to the head.

Jackie Fiels met a tough Irishman in Doyle, but beat him all the way, scoring a knockdown in the first round. Jack hurt both his hands in this fight, which may affect his chances today. Hugh Haggerty justified all that was said about his punching power by knocking Switek, a good Pole, cold in the first round.

Al Mellow of Lowell, Mass., defeated Doussout regarded by most Europeans as unbeatable. Ben Funk punched his way to victory over Jones the Australian after Funk had hurt his right hand and Jones had floored him for a short count with a sweeping body blow. Only the Australian's gameness enabled him to get up for the Yale man toppled him with a right cross in the third.

It is unfortunate that both Kirby and Mulholland drew Byes in the 175 pound class because both are not to fight until Friday and both are on keen edge and "raring to go."

The British and Argentine fighters appear to be our closest rivals. Ingram of South Africa, apparently is a whirlwind.

Davis Gets Out From Under By Withdrawing From Business Firms

New York, July 16. (INS.)—John W. Davis, Democratic presidential nominee, announced today that he had resigned his partnership in the law firm of Stetson, Jennings, Russel and Davis, as general counsel to the Associated Press, as director of the U. S. Rubber Company, as director of the Atchison, Topeka and Santa Fe railroad and as director of the National Bank of Commerce.

PAYROLL ROBBER IS KILLED BY OFFICER

Rock Springs, Wyo., July 16. (INS.)—Clyde N. Fisher, coal company cashier, who disappeared yesterday with the company's payroll totalling over $6,000, and for whom airplanes, sheriffs in automobiles and cowboys on horseback had searched during the night, was shot and killed this morning by a guard at the company's mine when he resisted arrest.

N. Y. BANDITS MAKE HAUL

New York, July 1 6(INS.)—Six armed men today entered the Jewelry store of Louis Fried, subdued and bound two employes—Berthold Tag and Simon Okorn—and seized jewels valued by the firm at between $50,000 and $60,000. The bandits departed leisurely in an automobile.

Youthful Bandit, 17, Is Shot To Death In His First Banditry Attempt

Chicago, July 16. (INS.)—Frank Zietz, 17, bandit for an hour, is dead today, killed while he and a companion, armed with his brand new gun, were awaiting their first victim.

A bartender who became suspicious of the boys when he saw the butt of the gun protruding from Frank's pocket while they were making a purchase in his saloon, was responsible for their downfall.

He notified police who came to the scene, and ordered the boys to halt. The bandit recruit laughed, ran a few steps and turning, whipped out his gun and fired two shots. Five service pistols, in the hands of Chicago's bandit squad, spat fire in answer and Zeitz dropped to the sidewalk, dead, five bullet wounds in his body.

His companion, hands raised above his head, surrendered. He said he was John Krajci, 17. Zietz, he said, had received the gun yesterday and last night had proposed a hold up trip "to get some easy money." After some protest, he said, he agreed to take part in the escapade.

DE VALERA AND ALL IRISH POLITICAL PRISONERS FREED

Dublin, July 16. (INS.)—The freedom of Eamonn de Valera, Austin Stack and other Irish political prisoners was assured today when President Cosgrave of the Irish Free State signed a warrant for the release of all such political prisoners.

The date of the effect of the general amnesty has not been determined, but it was indicated the prison gates throughout Ireland probably would swing outward this week-end or early next week.

Repulbican supporters of De Valera, however, have already complicated the situation by demanding that their leader be freed in time to open the Tailtean Oames—an honor which they demand should go to him instead of to Cosgrave. That may delay the release date.

De Valera has been in prison since last August. Stack was imprisoned in April, 1923.

OHIO POLITICIAN MISUSED U. S. MAILS

New York, July 16 (INS.)—Charged with using the mails to defraud, Harry Newman, Ohio politician and one of the managers of the Cox-for-President headquarters here during the Democratic convention, today was reported out of the city, having been released in $5,000 bonds by Commissioner Hitchcock.

Newman was arrested on complaint of postoffice inspector Craighead, He said Newman had received scores of applications through the mails in reply to an advertisement for a sales manager familiar with the grocery and hardware business. A condition of employment at a $6,000 yearly salary, Craighead said, was that the applicant invest in stock of "Betty's Folks, Inc.," of Washington Pa. According to the complaint two persons paid for stock without receiving the high salaried positions promised.

"Betty's Folks, Inc., is said to be a defunct corporation, having been succeeded by a new company for the manufacture of brooms. Newman is alleged to have figured in the affairs of "Betty's Folks, Inc."

JUDGMENT AGAINST KING DAVID STANDS

Columbus, Ohio, July 16. (INS.)—The decision of the United States district court at Grand Rapids, Mich. granting Mr. and Mrs. John Hanse $20,000 judgment against Benj. Purnell, "king" of the House of David religious colony at Benton Harbor Mich., was affirmed here today by the United States circuit court of appeals.

The judgment was granted Hanse and his wife by the lower court in his suit against Purnell in which he alleged that Purnell obtained, through false representation, property from Hanse and his wife and their services to the colony in 1912-1920.

IRVONA YOUNG MAN MEETS A HORRIBLE DEATH IN CRUSHER

The crushed and mutilated body of James H. Giles, Jr., 25 years old, was found Monday morning at 8:45 o'clock in the coal tipple at the plant of the New York & Pennsylvania Company where he was employed. It had passed through the coal crusher and been conveyed to the top of the high tipple with a load of coal.

The young man, who was an electrician's helper, had been doing some electrical repair work on the ceiling of the coal shed. Instead of using a ladder with which to reach the overhead wires, he climbed to the top of a car of coal, which was slowly emptying into the crusher below. Mr. Giles was probably standing at one end of the car where the movement of the coal was not so perceptible, and did not realize his danger.

The coal, after passing through the crusher, is carried by a long conveyer to the top of the tipple where it is kept until required for use in the plant. Workmen in the coal tower, several hundred feet high, were first to know of the accident, when the horribly crushed body of the dead man was brought to the tipple lying in the midst of the broken coal.

Mr. Giles, who was unmarried, resided with the family of Thomas Rogers, at 428 South Jones Street. He was a former resident of Irvona, Clearfield county, where his parents, Mr. and Mrs. James H. Giles, Sr., still reeside. He is also survived by one sister, Mrs. P. N. Swauger, of Irvona, and two brothers, S. J. Giles of Lockport, and C. T. Giles, of Irvona.

—Lock Haven Express.

Public Opinion Is Only Sure Way To Peace Says Advert'si'g Man Speaker

By LUTHER A. HUSTON
I. N. S. Staff Correspondent

London, July 16.—Whether nations will live on terms of peace with one another or whether they will be drawn into new conflicts and fresh hostilities depends upon the temper of that public opinion which ultimately controls the policies of governments and diplomats, Edward Filene of Boston, said today in addressing the retail section of the International Advertising convention at Wembley.

"Democracy is the government of public opinion," said Filene. "If public opinion is to be accurately informed and free to develop without the mischievous influence of trouble makers, then we need above ll else a press that is free.

"The press can only be free thru the revenues derived from advertising. Therefore the big advertising men are playing an important part in shaping the world's peace."

The convention today was devoted largely to sectional meetings and the reading of many technical papers.

Acting Envoy

Isaburo Yoshida, newly appointed counselor and charge d' affairs of the Japanese embassy in Washington, is acting ambassador for his country in the United States now. Ambassador Masano Hanihara has returned to Tokyo on leave of absence. But in many quarters it is said he will not return, for his government, it is reported, is displeased with his work in view of the passage of the exclusion act.

23,000 World War Vets Undergoing Treatment In Government Hospitals

Washington, July 16. (INS.)—Twenty-three thousand veterans of the world war are undergoing treatment in government hospitals, Director Frank T. Hines of the Veterans Bureau announced today in making public the names of leading physicians selected to serve on the federal council on medical and hospital affairs.

This council will organize here July 22, when a program of hospital management will be mapped out for the benefit of war victims.

PREPARATIONS ARE COMPLETE FOR KLAN DAY HERE TOMORROW

According to posters which have adorned win ; ws, telephone po.s, and automobile windshields for the past two weeks, tomorrow is Klan Day for Clearfield. Beyond this intelligence and the general comment to be heard, little is known of the plans of the K. K. K. for the morrow. There has been considerable Klan activity about the vicinity for the past two weeks, the burning of the emblematic cross being almost a nightly event on the hills surrounding the city.

In addition to this outward sign there have been several strangers in our midst whom we understand have put on a vigorous membership drive in order to have a large class of initiates for the ceremony to be held in the evening.

The location of the meet is understood to be the field across from the "old narrows" near the Hogback on the Curwensville road, quite some distance from Clearfield. This field has been mowed and leveled and put in readiness to take care of the great crowd that is expected to attend from far and near. A speakers stand has been erected and nothing left undone which will make for a perfect setting for the spectacular ceremony of inducting men and women into the order. The event is advertised as an afternoon and evening function and it is expected that families of klansmen will spend the afternoon and evening there.

SENATOR WHEELER BOLTS JOHN W. DAVIS

Washington, July 16 (INS.)—Senator Burton K. Wheeler, famed Daugherty prosecutor, will bolt the Democratic ticket in November, because the standard bearer is John W. Davis, it was announced here this afternoon. He will support the candidacy of Senator Robert M. LaFollette.

Wheeler, a Democrat from Montana, was prominently mentioned at the New York convention, as a running mate for Davis. He declined the post.

In explaining his action, Wheeler declared he "could not conscientiously support a candidate who represents the house of J. P. Morgan and Company." He referred to Davis' recent legal connections with the Morgan firm.

"My own views upon the political and economic conditions of the country clash wtih those of Mr. Davis." Wheeler told International News Service. "I believe in a different economic theory of government than that supported by Davis. I cannot support in the coming campaign any candidate representing the House of Morgan".

Wheeler said he expected to "take the stump" for Senator LaFollette.

Chicago, July 16. (INS.)—Unconcealed joy reigned in LaFollette headquarters here today when the International News Service gave officials there their first knowledge of the bolt of United States Senator Burton K. Wheeler from the Democratic ticket and his announcement that the noted Daugherty investigator would support the Wisconsin Senator for the Presidency.

"Of course that is fine, but it isn't amazing," said a spokesman for Congressman Nelson, National manager, who was not in at the time ;'a lot of others will do just that thing. It was to hve been expected when the Democrats nominated John W. Davis."

FRANCIS JONES OF GLEN RICHEY WINS PRIZE SCHOLARSHIP

Francis Jones of Glen Richey, has our heartiest congratulations. Young Jones is to have the privilege of attending any college or university in the whole state of Pennsylvania and selecting any course he desires. The recipient of this wonderful prizes is a graduate of C. H. S., Class of 1924, Classical Course.

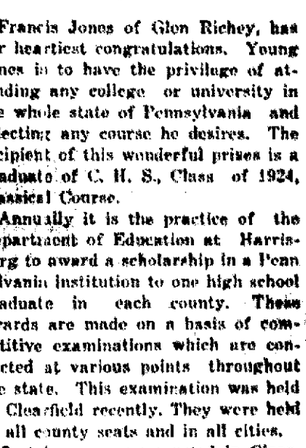
Annually it is the practice of the Department of Education at Harrisburg to award a scholarship in a Pennsylvania institution to one high school graduate in each county. These awards are made on a basis of competitive examinations which are conducted at various points throughout the state. This examination was held at Clearfield recently. They were held at all county seats and in all cities.

Just how many competed in Clearfield County we do not know as an examination was conducted at DuBois but there were nine entries here.

Jones, therefore, can be said to be the "champion" high school scholar of Clearfield County for 1924. He was a member of the famous debating squad of 1924 and took an active interest in other school activities.

His school chums will join in congratulations.

Heads Moose



William A. Marnkle of Rochester, N. Y., will be inducted into the supreme dictatorship of the Loyal Order of Moose on July 30.

Fashionable Ritz Carlton Hotel In New York May Be Padlocked For A Year

New York, July 16 (INS.)—The fashionable Ritz Carlton Hotel was closed as a common nuisance under the Volstead law if plans in preparation today by the United States attorney's office are successful.

The Ritz Carlton is one of the most famous hotels in the country. It was last assessed by the city at more than $5,000,000.

Lyman H. Ward, assistnt U. S. Attorney, announced he would ask a permanent injunction and the closing of the hotel for one year. If Ward is successful, the Ritz Carlton will be in the same boat with the Palais Royal and many other white light restaurants closed for a year by Federal court order.

Prohibition authorities claim the hotel proper and the roof garden are under the same management; that the entire place should be closed.

Counsel for the Ritz Carlton, Edmund Durkin, said the Hotel company "never countenanced, never profited by sale of liquor" and indicated his confidence that such would be the ruling of the court, should the case come up for trial.

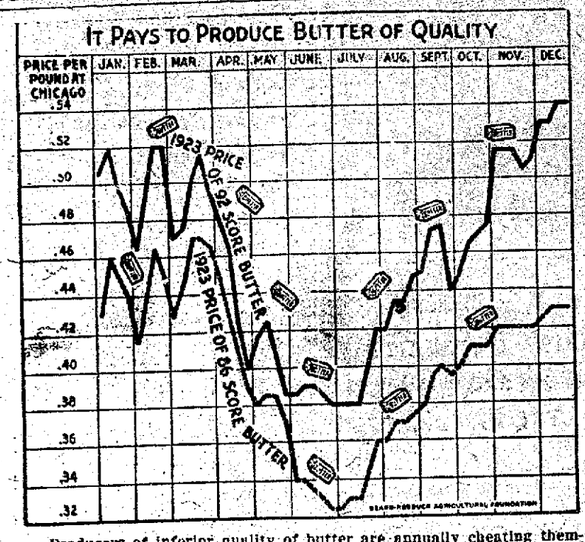
FARM LOAN INTEREST LOWER

Washington, July 16 (INS.)—The Federal Farm Loan Board today announced it had reduced the rate on its loans to co-operative marketing associations from 5½ to 5 per cent effective immediately.

These loans are made through the intermediate credit banks which in the last year have loaned $50,000,000 to approximately 200,000 farmers.

Miss Lizzie McDermott of New York is spending her vacation at the home of her cousin, Frank Ueltz, of Clearfield county.

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®



Producers of inferior quality of butter are annually cheating themselves out of millions of dollars. The price of butter depends primarily upon its quality and condition. The smallest defect may result in the loss of a sale or a tremendous cut in price. According to a study made by the Sears-Roebuck Agricultural Foundation during 1923 the marginal difference in the price of high and low quality butter on the Chicago market amounted at times to as much as 11 cents per pound between 86 and 92 score.

In January of 1923, 86 score butter was selling at 43 cents while the 92 score was going at 50½ cents. During January, February and March the marginal difference of the high quality over the low varied from 4 to 7½ cents. Through April butter prices dropped, the margin narrowing until the difference was less than a cent. This condition was only temporary. In May the price range begins to widen until in November and December quality prices were from ten to eleven cents over prices for inferior butter.

High quality, uniformity of product, with good marketing methods, are required to secure a high net return. In determining the final score of butter, flavor, body, color, salt and package are rated separately, with the following number of points given to each: flavor, 45; body, 25; color, 15; salt, 10, and package 5.

WATER CARNIVAL FOR JUNIORS

A special swimming meet for the Junior members at the Y. M. C. A. Thursday morning at eleven o'clock, will be held during the swimming hour at which one hundred boys will be eligible to compete in diving for form, swimming under water, different strokes for form, biggest splash, etc., at which several prizes will be given. Boys from the ages 12 to 14 are welcome to visit the gallery and enjoy the Carnival.

A Second Look.

"Jimmy's a coward, that's what he is! Last night he leaned toward me, put his arms around me, drew my face close and started to kiss me, and then didn't! He is a coward!" "Oh, my dear, maybe you misjudge him. Are you sure you were sitting with your back to the light, so it wouldn't shine in your face?"

CONCERT AT PARK TOMORROW EVENING

The American Legion Band will give another of their delightful open air concerts at the Clearfield Park tomorrow evening starting at 7:30. This is the second of the series and the program will be inclusive.

The band will be under the direction of Assistant Director Bridge and his selections of numbers are varied enough to suit everyone. Classical, popular songs and jazz music will be played by this wonderful local organization.

Did Leonardo Name America?

It has been generally supposed that Martin Waldseemueller of St. Die first applied the name America to the western continent. But now Professor Harrington asserts that Leonard da Vinci gave the name on a map made in 1514.

Sport News

REEDSVILLE JUNIOR TRIM WITMER PARK BOYS

In the Junior Boy's Playground Ball League yesterday the Witmer Juniors journeyed to Reedsville and received a good trimming in which runs and hits were as thick as flies around a molasses barrel with the Reedsville boys always well in the lead. This makes the winners unbeatable so far, but one team that has not played them assure us that it will be a different story on Friday afternoon.

League Standing	W	L	Ave.
Reedsville Jrs.	2	0	1.000
West Side	1	0	1.000
Witmer Park Jrs.	0	1	.000
East End Jrs.	2	2	.000

The schedule for the remainder of July is as follows:

Thurs. morn. Witmer Park at West S.
Fri. morn. Reedsville at West Side.
Fri. aft. noon, East End at Witmer P.
July 21, aft. Reedsville at Witmer P.
July 22, morn. West Side at East End
July 23, aft. West Side at Reedsville.
July 24, morn Witmer Park at East E.
July 25, morn. East End at Reedsville
July 25, aft. West Side at Witmer P.
July 28, aft. Witmer Park at Reedsville
July 29, morn. East End at West Side.
July 30, aft. Reedsville at West Side.
July 31, aft. East End at Witmer P.
Aug. 1, morn, Witmer Park at W Side
Aug. 1, aft. Reedsville at East End.

Playground ball is becoming so popular that the West Side girls have formed a team and no doubt a girl's league will be formed between the playgrounds.

The baby grand slide at Reedsville has been repaired and the youngest are enjoying themselves to the limit. The attendance at all the playgrounds is growing daily as the weather becomes enjoyable.

OFFICIAL VOLLEY BALL RULES

The teams shall be composed of six men in all official games.

No substitute can take the place of a player until a whistle has been blown declaring the ball dead. Such players shall report at once to the referee.

One court occupied by a team shall be called their own court; that occupied by their opponents, the opponents' court.

Serving order in which the players are to serve shall be called the "order."

The shifting of men in position shall be called "Rotation."

The putting of the ball in play by an eligible man, by batting it into the opponents' court in any direction with one or both hands while standing with both feet behind the back line of the court, is a service.

"Point" shall be called when team receiving fails to return the ball legally to the opopnents' court.

When the ball touches any surface or part of the ground outside of court the ball is out of bounds.

The ball is dead when the Referee's whistle blows.

Any player committing any act which, in the opinion of the Referee, tends to stop or slow down the play shall be considered as delaying the game.

When the ball pauses for a moment in the hand or arms of a player and is not batted it shall be considered as catching or holding the ball.

A player striking the ball more than two times consecutively shall be considered as dribbling the ball.

(Concluded in tomorrow's edition.)

Tribute to the Poorer Classes.

The women of the poorer classes make sacrifices and run risks, and bear privations, and exercise patience and kindness to a degree that the world never knows of, and would scarcely believe, even if it did.—Samuel Smiles.

Much Time Lost Through Illness.

Some 42,000,000 men and women gainfully employed in this country lose on an average more than eight days each annually from illness disabilities.

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with Eczema, Blotches, Ringworm, Rashes and similar skin troubles. Zemo obtained at any drug store for 35c, or $1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. Get it today and save all further distress. Zemo Soap, 25c—Zemo Ointment, 50c.

Keep Swatting The Present Fly

And you'll be killing future millions. We have swatters and many other helps for your campaign against the fly.

Irvin's Drug Store

EAT MORE FRUIT THESE WARM DAYS

The acids in the fruits are the things which will help you keep cooler than a lot of other things you might eat and keeping cool is largely a matter of what you eat.

We are always showing the latest fruits that appear on the markets and you'll find them fresh and dainty.

THORN BROS.

COME AND SEE A HOT VOLLEY BALL CONTEST AT REEDSVILLE TONIGHT

The Rose Co., No. 1 volley ball team have been practicing faithfully at the High School Playground and will go to Reedsville tonight to play off the tie in the friendly contest between the two teams, each having won three games; visitors are invited to be present tonight at 6:30 and enjoy the enthusiastic and excellent contest in volley ball at the Reedsville playground.

Ideal "B[illegible]n Man.

A look of intelligence in man is what regularity of features is in woman; it is a style of beauty to which the most vain may aspire.—La Bruyere.

Most Valuable Ore.

Radium, the element worth about $3,000,000 an ounce, is obtained from carnolite ore found in Colorado and Utah. Besides radium, carnolite contains potash, uranium and vanadium.

OH! MY BACK!

Aching Backs Make Life Miserable For Many Clearfield People.

It isn't right to suffer day in and day out with dull, unceasing backache. Or be utterly miserable with sharp stabs of pain whenever you stoop or lift. But chances are you will suffer these tormenting aches and pains as long as your weakened kidneys are neglected. You may have headaches, too, spells of dizziness and urinary disorders. Then use Doan's Pills—a stimulant diuretic to the kidneys. Experiences of Clearfield people prove the merit of Doan's.

Mrs. W. W. Summers, 708 Dorcy St., says: "There was a dull, bearing down pain across my kidneys and when I stooped, a severe pain seized me in my back and it was hard to straighten. I noticed the backache the most in the morning. Headaches made me miserable and my kidneys acted irregularly. Doan's Pills from Woodward & McPherson's Drug Store drove away the backache and headaches and regulated my kidneys."

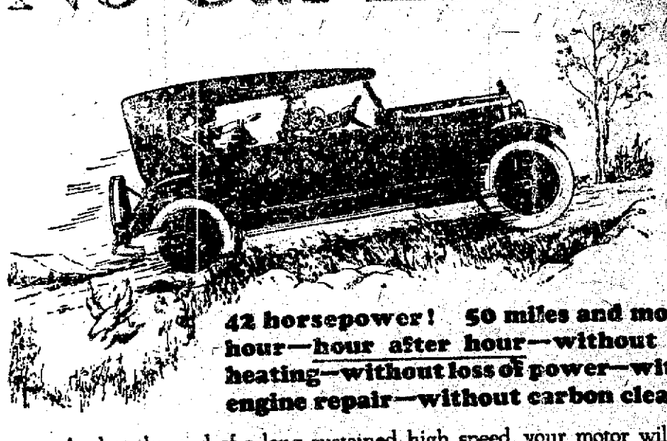
No Car Like It!



42 horsepower! 50 miles and more an hour—hour after hour—without overheating—without loss of power—without engine repair—without carbon cleaning!

And at the end of a long sustained high speed, your motor will be cooler, will need less water than any similar sized poppet-valve engine;—will need no repair, no tinkering with unseated valves.

This engine's power curve keeps climbing *up* while the power of a poppet-valve car is dropping off. Furthermore, the Willys-Knight is entirely free from those engine repairs which make up 50% of the upkeep cost of practically all poppet-valve cars. It has no cams—no springs—to get out of order. A car you can keep season after season. Take a ride today.

ODDS AND ENDS AND THINGS

By J. D. C.

Women had a big time in these United States getting her "rights," but when they were finally showered upon her by the 19th Amendment to the Federal Constitution and the right to vote was hers the trouble was far from ending. If you doubt this statement, ask the tax collector. You don't have to be particular as to tax collectors; ask any one of them anywhere. They have all had the same experience. Women do love to vote; that is some of them. They don't know why, or much about the game, but they will not pay taxes. That is and has been demonstrated in every district in the land. They just wont do it; so there, and that is all there is to it.

The last logislature passed a law allowing tax collectors to seize the body of delinquent female taxables and incarcerate them in jail until the tax was paid. The lawmakers no doubt figured that the average man would even pay his wife's taxes rather than get along without his cook, housekeeper and companion. Some do, but not many of them thus far.

The newspapers on Monday carried a story to the effect that a Schuylkill county tax collector became exasperated at the refusal of a woman taxable to liquidate her tax bill and, seizing her body, placed her in jail. She remained there two days before friend husband came to her relief and paid the bill. No sooner had the word got about over the foxy collector's bailiwick than every man got busy and before the week was out ever ywoman in town had a tax receipt for her 1923 taxes.

There is "blood on the moon" up at Janesville, Gulich township, Clearfield county. The tax collector has a long list of delinquent women taxables on his list and last week went before 'Squire Ruffner at Madera and made information against fifty of them for non-payment of taxes. The whole half hundred were in a fair way to be sent to the Clearfield county jail, when the husbands of two of the women came down to Clearfield and laid the matter before Attorney W. A. Hagerty. Mr. Hagerty very promptly informed them the Justice of the Peace had no jurisdiction in the matter and the proceeding was thereupon illegal. The word was taken back to Madera and when found to be a correct exposition of the law, hostilities ceased for the present.

Under the law the warrant of the collector, given him with his tax duplicate each year, authorizes and empowers him to seize the person of any delinquent taxable upon failure or repeated failure to pay his or her taxes. The Gulich township collector says he will do just that before the week is out if the women do not pay their taxes in the meantime.

Warden McClure at the jail is now doing the worrying. As he now has a company of 45 bootleggers and moonshiners filling every nook and cranny of the jail, he is up in the air as to what he will do with the expected army of Gulich township women. He has already petitioned the County Commissioners for tents, and if they come will erect a tented city on the lawn at the jail in which to house his fair prisoners.

The women now have their perfect "rights," but some of their "lefts" are not so much.

* * *

We are approaching the season at which those charged with thet safety of our great forests feel the most apprehension. Examining the statistics concerning the cause of fires, the one great danger to the forests and the wild life that they protect, we can easily see the reeason for this. We can also realize the cause for much bitterness on the part of the forest service toward careless individuals.

Figures based on fires in national forests where the collection of data was possible, shows the cause of fires to be as follows:

Fires caused by sparks from locomotives	5.98%
Fires caused by lightning	36.44%
Fires caused by incendiarism	13.65%
Fires caused by brush burning	3.70%
Fires caused by camp fires	13.22%
Fires caused by smokers	17.44%
Miscellaneous	7.15%

Exactly 55.16% of all the fires could be charged to carelessness and that is exactly 55.16% too many. When you stop to think of the irreparable consequences, the millions of dollars worth of lumber destroyed, the game supplies wiped out, etc., it certainly is time to pause and think.—Sportsman's Digest.

Announcing that more than 85 per cent of the inland and coastal waters of the United States are polluted and constitute a grave menace to the health of the nation, Will F. Dilg, president of the Izaak Walton League of America, today declared war on manufacturers and cities using the rivers and lakes in their vicinity as a depository for waste.

This league is composed of more than 100,000 American sportsmen with chapters in 42 states of the union has instituted a lively campaign against further contamination of the countrys water, not only from a standpoint of fish and game conservation but of a vital safeguard against disease.

With thousands o fpeople now leaving for their annual respite from the cities, comes the league's warning against bathing in or drinking from lakes and streams into which sewage, garbage and chemical waste from factories are discharged.

"The Izaak Walton League of America," says the report, "is not selfishly interested in the saving of our streams for fish and game."

Making Sure.

The mistress felt anxious about the mushrooms. "You haven't forgotten," she said, "to put a silver quarter in with the mushrooms to prove that they aren't poisonous?" "No, indeed ma'am," said the cook, "an' to make certain, I put in a 50-cent piece."

DAILY RADIO PROGRAM

(Compiled by United Press.)

THURSDAY, JULY 17.

Thursday's Best Features.

WEAF, NEW YORK.—Vincent Lopez Orchestra.
WFI, PHILADELPHIA.—Vessella's Band.

Chrysler Six Equipped With Special Balloons

The Brougham

Step into a balloon-equipped Chrysler Six and note how easily the steering wheel turns. Pivotal steering is the chief reason. The steering king pins are inclined at an angle, and turn on ball thrust bearings. Chrysler Six fenders are wider, in order to care for the increased width of balloon tires.

The Touring,	$1395	The Phaeton,	$1495
The Roadster,	1625	The Sedan,	1725
The Brougham,	1895	The Imperial,	1995

All prices f. o. b. Detroit; tax extra.

Special six-ply, high-speed balloon tires—for which the Chrysler Six is designed from the ground up—are standard equipment on this car.

Chrysler Six pivotal steering, its special design of spring construction, its extra-wide fenders, all contribute to the use of balloon tires with complete success.

The higher speed capacity of the Chrysler Six demands more than the ordinary balloon tire, so a special six-ply, balloon has now been perfected. These Chrysler special high-speed balloons assure the owner of even greater riding ease and safety, with no greater tire service expense, and mileage records the equal of cord tires.

We are pleased to extend the convenience of time-payments. Ask about Chrysler's attractive plans.

Stop that Eczema!

AMAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with eczema, and you have used skin applications without number, make a test yourself, on yourself with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no unproven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Make Your Kitchen Save Food, Time, Labor, Fuel, With A

DUPLEX ELECTRIC COOKER

Cooking in the Duplex Electric Cooker is the most economical way known. This cooker will start economizing the first day you use it.

First—economy of effort. You simply prepare your food and place it in the cooker. Connect it to any convenient outlet and let it stay until steam comes freely from the steam vent. Turn off your current and the fireless principle will complete the cooking. Think of the time and labor this saves you. You can go away and leave your food without fear that it will burn or overcook. It eliminates standing over a hot kitchen stove and spending most of the day in the kitchen.

And think of the fuel you save. It only takes a few minutes to heat the cooker—and that is all the electricity you need to use. This saving alone will pay for your cooker in a very short time.

Added to all these savings is the food economy. The Duplex Electric conserves all the juices and flavors. There is very little evaporation, and thus the food is not exposed to any outside elements. It is possible to cook less expensive cuts of meat and other foods just as deliciously as the most expensive ones in your Duplex Electric Cooker.

TRAFFIC COMMISSIONERS

Several good-sized American cities have created a new public office. They have "traffic commissioners" who devote all their time to the problem of street traffic. They study the situation, suggest broad policies and carry them out, under authority provided by the city council. It is found that great improvement results from this specialized machinery. This is timely recognition of the importance to which the multiplication of motor cars and the growth of population have brought city traffic. Streets and sidewalks are crowded, and the crowds of people and cars are confused, beyond anything that the last generation could have imagined. The business section of a small town may now have traffic jams as great as those characteristic of great cities 20 years ago. A country cross-roads may be jammed as badly as the heart of a city. Everywhere there is the necessity, imperative and growing, of keeping vehicles and people moving and at the same time safeguarding pedestrians and drivers.

It is a great engineering problem, a great police problem and a great psychological problem. Small towns which would not find it practicable to establish a separate department for this purpose might nevertheless do well to establish general traffic supervision as a special function of some appropriate official.

UNBARRED IMMIGRANTS

Most Americans have overlooked the fact that while the rest of the world is restricted to immigration quotas, there are no bars put up against our nearest neighbors, Canada and Mexico. As a result, it may be expected that in the next 12 months we shall have more immigration from these two countries than from all the rest of the world together.

It will not be an entirely new thing. Canadians and Mexicans have been coming in very freely. From Canada last year the United States received 180,000, which alone is more than the net gain from Europe. From Mexico last year came nearly 50,000 officially noted and counted, and no doubt many thousands more unobserved by the immigration officers. The movement is likely to be more pronounced in this and succeeding years, as the movement slackens from other countries.

The omission of these neighbors from the quota list is not accidental. Congress does not care to erect barriers on our northern and southern borders like those set up in our seaboard ports of entry.

Canadians are welcomed because they fit easily and naturally into the political and economic life of the country. They are, with few exceptions, of similar blood to the dominant American strain. They are mostly good farmers and skilled workers.

Mexicans, on the other hand, while far more difficult to assimilate politically and socially, make good workmen for unskilled jobs, and help to supply the lack of crude labor which is felt more and more as the European supply is cut off.

With good times, the States may draw heavily from both countries. Canada, at least, would rather have a quota, to keep her people at home.

Income Collection Service

In connection with our Special Deposit Department, many of our customers have us collect their income, clipping coupons as they come due and crediting them to their accounts.

If you find it easy to overlook the maturity of coupons, you will appreciate this service.

It is entirely free. You are invited to make use of our Special Deposit Department.

Elephant More Intelligent Than Dog.

Some idea of an elephant's capacities may be reached by comparing him with the dog, with whose intelligence we are familiar. Making allowance for the dog's "opportunities" under man's training, science has come to doubt whether the most exceptionally intelligent dog possesses comprehensive faculties equal to those of the adult wild elephant fresh from the jungle.

Ozone Seasons Wood.

A French scientist, M. Otto, has discovered that all kinds of wood can be seasoned rapidly and efficiently by means of ozone. He has established a factory in Paris, and another in Italy, where various species of wood are being treated by the new process. In two weeks freshly-cut timber is ready for the cabinetmaker, and is as dry as if it had been exposed to the air for years.

Refrigeration.

Refrigeration is a science that finds many uses in mining. It overcomes two great difficulties: The influx of water in porous formations and the heat of deep mines. By freezing the surrounding earth, miners can carry their mains through water-bearing strata and by supplying themselves with cool air they can penetrate the earth to great depths.

These Hard to Find.

Habenarias are a genus of o— of which about eighteen specie— natives of the eastern states, say— ture Magazine. They are parti— low, moist ground, so that the— must be willing to risk a wet— search of our most forbidding— and swamps. The blossoms are— quisitely dainty that the finding— them is well worth all the trouble a— discomfort.

Harlequin Style.

Towards the close of the Eighteenth century furniture makers designed pieces which might have a double or triple use. This was called harlequin furniture. Beds of today that are transformed into mantels or pianos, tables which become dressers, chairs that are stepladders are surely examples of harlequin style.

Peculiar Combinations.

An English woman recently wrote to a newspaper saying that she was born A. Mann (Alice Mann). She married a Mr. Husband, and so became A. Husband. He died and she married again, this time a Mr. Malden. Becoming a widow for a second time, she concludes that, though born A. Mann, she will die A. Malden.

Progress Editorials for Women

BEAUTY IN THE SCHOOL ROOM

By FLORENCE DAVIES

Page the ladies of Mr. Ziegfield's chorus.

School teachers wanted.

No longer will comic artists depict the school ma'am as a lanky, serious creature, wearing gaiters and goggles. By no means, in the future she is to be hired for her beauty.

For teachers, says a Child Expert who spoke in Boston recently, should be pretty. Children are peculiary susceptible to appearances. They are invariably attracted to beauty, and repelled by ugliness. They are great hero worshippers and they want to be proud of their heroines. Besides, the homely school teacher creates a disagreeable association with the whole idea of going to school. Many a child who hates school, might love it if the teahcer were a Marilyn Miller instead of a Miss Sour-face.

But, teachers, unfortunately, can't order up their features to suit their taste. They are like the rest of mortals in that respect, and have to make the best of what they draw.

And that's just it, says Miss Lucy Oppen, who is responsible for the theory that all teachers should be pretty. That's just it; All they have to do is to make the best of what they have. This demand that all teachers be beautiful is not as unfair as it sounds, she points out. They don't demand the impossible. Children themselves aren't particular as to shape of a mouth or the exact line of a nose. But they sense a kind of inward beauty. They are quick to feel that willt-o-be-lovely, which a woman with the plainest features may cultivatee.

Clothes make a lot of difference and a happy expression adds a kind of radiance that will pass for beauty in any company. Freshness, charm, attractive attire, a lovely coiffure, a well-kept skin, and radiant cheerfulness—this is the kind of beauty which may be had by taking thought, and this is all that our child expert asks.

"I have known teachers themselves to be transformed by this very gospel of beauty," says Miss Oppen. "A teacher would be apparently of the dull, fretful, sharp-voiced, flabby, ineffectual type. Once she set about it to make herself attractive to her children in this way, she became actually beautiful—that is, beautiful with those underlying radiant qualities which children are quick to see and feel." It isn't merely the doll-like type of beauty that is needed, it seems, which must be a great relief to some of us, who otherwise would have to decide right now to forego all thoughts of ever entering the teaching profession if that were the case.

And while we are on the subject of children and beauty, let's pass on to the mother. Secretly, children adore pretty mothers. As a rule they are too loyal to admit, even to themselves, that mothers are ever anything but beautiful. But they are quick to notice when mother wears a becoming frock, and when she looks as well as other mothers. If more women realized this they would not be so quick to exclaim, with that martyred air which women delight, "Oh, anything will do for me. I never think about myself."

If you don't, mother, you'd better begin. You owe that much to your children, if not to yourself.

Daily Sentence Sermon.

The easiest person in the world to fool is yourself.—Milwaukee Sentinel.

How Locomotive Uses Coal.

A ton of coal will run an ordinary locomotive from 35 to 60 miles.

A new cut to burn slow

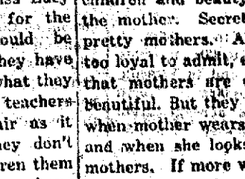
—and cool in pipes

But an old secret method for taste—

"Wellman's Method" of 1870

Rich and fragrant

In foil package to reduce price to 10¢



Granger Rough Cut

A Pointer on Tobacco—

The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the "cut". Granger is "rough cut" to smoke slow and cool—cut for pipes, as cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

Soy Bean Hay Is Gaining in Favor

Big Increase Noted in Acreage and Production—Gain in Yield.

(Prepared by the United States Department of Agriculture.)

The soy bean is getting more attention every year as a hay crop, says the United States Department of Agriculture. Just how fast this use of the crop is increasing is shown by figures on production for the years 1922 and 1923. In nineteen states for which the figures are available, the total acreage devoted to soy bean hay was 509,000 and by 1923 it had increased to 794,000. Total production in 1922 was 782,000 tons while in the succeeding year it was 1,155,000 tons. Not only was there an increase in the total production but in the yield per acre, the increase being from 1.39 to 1.45 tons per acre.

Growth of Crop for Hay.

Alabama was the only state in which there was a decrease. In the other eighteen the crop either held its own or increased. A number of states in the Middle West show the greatest growth of this crop for hay purposes, but there are other states in various sections where it is an important feeding factor. In Illinois during the two years in question the acreage increased from 70,000 to 137,000; in Indiana from 29,000 to 95,000; in Missouri from 33,000 to 68,000; in Iowa from 7,000 to 10,000; in Ohio from 30,000 to 50,000, and in Wisconsin from 11,000 to 14,000. North Carolina increased its acreage from 65,000 to 70,000; Tennessee from 125,000 to 130,000; Kentucky produced 38,000 both years.

That the crop is grown for hay in the East as well as in the Middle West and South is shown by figures for Maryland which increased its acreage from 10,000 to 12,000; Virginia which increased from 40,000 to 48,000; West Virginia which grew 5,000 both years; and Delaware which grew 3,000 acres in both seasons.

The figures compiled by the department for the last two crops seem to show that slightly better yields of soy beans have been obtained in the eastern states. In 1922 the average for Maryland was two tons and for 1923 1½ tons to the acre. For Delaware it was 1.75 and 1.4 for these years. In Virginia the average was 1.8 for both years and West Virginia 1.7. The average for the country for both years was under 1½ tons, the lowest yields being in Georgia and South Carolina.

Soy bean hay, if cut at the right time, is of high feeding value and appetizing to all kinds of live stock. It is high in protein and takes the place of a considerable quantity of high-priced concentrate. Another excellent feature of the crop is that it may be sown in an emergency when some other hay crop has failed to winter well. It can be cut any time from the setting of the seed until the leaves begin to turn yellow, but the maximum returns can be made by cutting it at a time when the pods are well formed. Perhaps a better quality of hay will be produced by earlier cutting but the yield will not be so great. Late cutting produces a hay too fibrous to be the best kind of feed.

Easy to Cure Beans.

Those who have made cowpea hay will find that it is considerably easier to cure soy beans. Cutting may begin in the morning as soon as the dew is off and continued the rest of the day. One of the important things to remember is that hay should be raked up after the leaves have become wilted but before they are dry, otherwise many of them will break off and there will be a heavy loss of one of the most valuable parts of the crop. The hay may be left in windrows for a day or so, if the weather is suitable, and then placed in small cocks or bunches. For making good soy bean hay about 5 or 6 days of good curing weather is sufficient. This length of time is necessary because practically all of the curing is done in the cock, which if well constructed will prevent damage by rain and snow. When weather conditions are unfavorable many farmers use frames on which to pile the freshly cut hay so that extra good ventilation is provided. The frames are usually 3 or 4-sided pyramids made of boards or poles, 3 to 6 feet long, fastened together at the top and held at the bottom by cross pieces. When such frames are used it is possible to pile the hay on them immediately after it is cut and produce a good quality of feed.

Several Effective Ways to Destroy Field Pests

There are several effective means of destroying the pests which burrow in the fields. Poisoning with strychnine, trapping, flooding and fumigating with carbon bisulphide are popular methods. The mole is difficult to destroy in any other manner than by trapping. Poison is the most effective means of destroying the rodents. Flooding, of course, is only possible in certain cases. Carbon bisulphide is used frequently but in the case of moles considerable gas is lost where the runway is near the surface of the ground, and the efficiency of the method is seriously impaired. There is also some difficulty in using carbon bisulphide due to the fact that the runways are not all on the same level and the gas will remain in the lowest portions, not rising to fill the runway where it approaches the surface of the ground.

United States Roads Outdo World.

The highways of this nation total more miles than nearly all the rest of the world's put together—2,500,000.

The AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

WANTS HIS MARKER PAINTED BLOOD RED

Requesting that World war veterans annually repaint his monument in blood red "to act as a reminder of the blood shed by Minnesota men," John Bowe, Legionnaire and soldier of fortune of Canby, Minn., has made his last will and testament.

Bowe, whose service under colors of several nations has brought him one of the most unique fighting records in World war history, now past fifty-five, is awaiting that last call for service beyond. In the meantime he has not forgotten the sacrifices of his comrades, and by continuation of service in the American Legion has earned the admiration of the fellows for his fighting spirit.

His early life was one of hardship. In 1888 he went to Pierre, S. D., to be in at the opening of Indian lands (which did not open) and had to trek back to Deadwood on foot to secure employment. The next year he rode 500 miles through the Dakotas to Montana, on to Spokane, California, Utah, Old Mexico; saw him in what were nearly pioneer days. Service in the navy with Spain followed this adventurous career.

Then abroad. Bowe visited Portugal, Spain, Italy, Morocco, Algiers, Egypt, Turkey, Palestine and Greece. He saw Cuba, Panama, Venezuela, Martinique and other Central American countries with odd and most daring of experiences practically everywhere he visited.

He is believed to be the first Minnesotan to get into the World war; in January of 1915 he enlisted in the French Foreign Legion. There he served for one cent a day until October of that year when he was wounded in the Champaigne attack near Ferme Navarin. He won the Serbian medal for bravery, the French Croix De Guerre, the fourragere of the Legion of Honor, a Congressional

John Bowe.

Medal of Honor from President McKinley, and service medals for his service in the Spanish-American war and the Philippine insurrection.

Invalided home from his French service in 1916, Bowe found he had been "sold out" for nonpayment of a mortgage on his home and was forced to start all over again. But this did not daunt him, so he set about making a new home for his wife and family, and "carrying on" for them.

Bowe was an American in the category of one who served with allied forces, and for whom special provision was made that they might enter the American Legion. He was present at the first department convention of Minnesota Legionnaires, and was chairman of the congressional district committee. Following this service Bowe went about the state organizing posts, about forty coming under his jurisdiction.

When the national convention was held in Minneapolis Bowe was named to the eligibility committee and was a member of the sub-committee which prepared the present clause setting qualifications for membership. He was a delegate to the second national convention in Cleveland, O. One year he was candidate for the post of department commander, but was defeated. At the last department convention, held in Faribault, he served on the resolutions committee.

Legion Opens Night Schools

In combating illiteracy in the state, one of the first moves of Georgia members of the American Legion is the support of night schools, where those unable to read or write can study. Bolding post of the Legion in Gainesville has opened such a school, which will have the services of instructors of the Gainesville high school.

Though Something Depends on Quality

Where no counsel is the people fall, but in the multitude of counsellors there is safety.—Solomon.

Curwensville's Own Column

A number of nurses employed at Clearfield hospital took a day off from duty and held a picnic at the Park yesterday. They were a jolly bunch and enjoyed their outing on the banks of the old West Branch.

The athletic program for Labor Day is about completed and will be given to the public in a few days. There will be sports galore for old and young. As the celebration will be conducted under auspices of the organization known as The Yellow Dogs, a social fraternity is an ample guarantee that the long list of sports will be carried out in full.

Bob Wolf met a real bear on the highway while coming home from Philipsburg Sunday night. He does not tell how "he and his auto killed the bear" but how hard he stepped on the gas.

Last evening the Mens' Baptist Fellowship League held a banquet in the basement of the Baptist church. Rev. H. A. Baker, of DuBois, was present and spoke to the assemblage. There was a goodly number present outside of the membership. An appetizing luncheon was served before the meeting came to a close.

Thursday evening has been designed at the Masonic Temple as "Ladies Night." Some two hundred invitations has already been accepted and filed. The Ladies Aid Society of the Methodist church will furnish and serve the refreshments. McKinley's orchestra has been secured to furnish the instrumental music, and a male quartette from DuBois will entertain with vocal music. There will also be dancing and card tables provided for those who enjoy that amusement. This occasion of sociability is under the personal supervision of Keystone Forest No. 93, Tall Cedars of Lebanon, and promises to be the leading social event of the season.

Mr. and Mrs. Scott Ammerman are pleased over the advent of a young son who entered over their threshold on Tuesday morning. As this is the first child to be born to them it is considered a trifle more than double value to the parents.

Three young men of the Bloomington section were before 'Squire Dale yesterday afternoon. One, David Price, by name, was the worst offender, he having broken into the home of Martha Bloom and attempted to thrash one of her boarders, Wm Punchois, beating him up rather severely by fists and dinner plates. He was charged with aggravated assault and also assault with intent to kill. He entered bail in the sum of $1000 for a court trial. His companions, Messrs Rowles and Brown, were not implicated so deeply having not entered the fight or the house but were charged with disorderly conduct while partially intoxicated and each suffered a fine of $5.00 and costs of prosecution.

Mr. and Mrs. Harry Rhodes, Mr. and Mrs. Belotus Strickland and Mr. and Mrs. Bert Kelly, were in Clarion over the Sabbath visiting with their daughters, each having one who is a student at the Normal school.

H. P. Fullerton has repainted his residence and Boyd Robinson has built a substantial front porch at his home. Both reside on Bloomington avenue.

Ned Bloom and wife came in from New Bethlehem and spent Saturday and Sunday with relatives. On their return George R. Fleming, father of Mrs. Bloom, went with them for a two week's vacation.

George Leech, a son of a former townsman, Jack Leech, is here for a week's visit, he coming from Warren O., where the Leech family now reside.

Mrs. Roberts and two children who live in West Virginia, are guests of Mr. and Mrs. W. L. Dale this week.

ATTEMPT TO SPEED UP GOVT. OIL SUITS

Washington, July 16. (INS.)—Atlee Pomerene, Democratic member of the Government's special oil council, left Washington this afternoon for Los Angeles, Calif., where he will seek to expedite hearings in the civil suit instituted against the Pan-American Petroleum Company to recover the Elk Hill oil reserves.

Pomerene will request that hearings be set early in September.

Before his departure, Pomerene, together with his associate, Owen J. Roberts, conferred with President Coolidge.

Mr. and Mrs. Horace E. Olson, of Chicago, motored to Clearfield yesterday and are guests at the home of Mr. and Mrs. Harry Halden.

Mr. and Mrs. Beauford Carson and three children of 1006 Bronson street, accompanied by Mrs. Lyman Gamble, all of Watertown, New York, motored here and are visiting Mrs. L. J. Carson of 430 Bigler avenue, and other relatives. Mr. Carson is a former Clearfield boy having left here about thirteen years ago.

Mr. and Mrs. Fred A. Walther, who spent the past week with Mr. and Mrs. W. J. Sacket and other local relatives, returned to their home in Harrisburg yesterday.

Sharks Vary in Savagery.

The savagery of sharks varies oddly in different seas. On the Atlantic coast of Florida bathing is perfectly safe, yet on the gulf coast it is dangerous in the extreme. The worst sharks are those found off Tampico, in Mexico.

Milk Is The Business Man's Ideal Lunch-Time Food

It doesn't need an expert to tell any business man that if he overloads his stomach—even partakes of a hearty meal—at lunch-time, he is not as keen mentally as he would like to be until nearly three o'clock. Perhaps you have experienced this and wondered why. There are certain functions of your digestive system put in operation the minute your stomach is overloaded which tend to cut down your mental keenness.

The ideal thing to eat at lunch-time is a shredded wheat biscuit and a plenteous amount of milk. There is a combination in the wheat and the milk which will give your body plenty of energy without disturbing your mind and then, if you wish, add a light custard for dessert.

You will find that this will keep you alert every business minute and that the dull, listless feeling you have been experiencing after a hearty mid-day meal, will disappear.

AND SEE THAT THE MILK ON THE WHEAT BISCUIT AND IN THE CUSTARD IS OUR RICH, SAFE AND SURE PASTEURIZED MILK.

Clearfield County Milk Producers Association and Clearfield Dairy Co.

School Board of School District of Clearfield Brough.
A. D. BIGLER,
7|10,12|16|ch President.

102—MISC. LEGAL

TRUSTEE'S SALE OF REAL AND PERSONAL PROPERTY
Constituting
THE QUALITY BAKERY

At the Court House, Clearfield, Pa., Friday August 8th, 1924, at 1:30 p. m.

J. T. Murphy, Trustee of the Quality Bakery, duly constituted as such Trustee by deed of Orin C. Barger and wife and William E. Spackman and wife dated November 22, 1923, and recorded in Clearfield county in Deed Book 266, page 216, will offer at public sale at the front door of the Court House in Clearfield, Pa., on Friday, August 8, 1924, at 1:30 p. m., all the real and personal property constituting the Quality Bakery and consisting of the following:

1. All those two adjoining lots of ground situate in the Third Ward of the Borough of Clearfield, County of Clearfield, and State of Pennsylvania, known in the original plan of West Clearfield as lots No. 4 and No. 5, bounded and described as follows: On the East by River Street; on the South by an alley; on the West by an alley and on the North by an alley. Being one hundred ten (110) feet front on River Street and two hundred (200) feet in depth, and being the same premises which were conveyed to Orin C. Barger and William E. Spackman by Matthew Savage by deed dated September 9, 1922, recorded in Clearfield County in Deed Book 258, page 413, and which by said Orin C. Barger and William E. Spackman were conveyed to J. T. Murphy, Trustee, by the deed of trust beefore mentioned.

Said lots being sold subject to the following liens: Mortgage of Orin C. Barger and William E. Spackman to Matthew Savage, now owned by H. L. Forcey, dated September 9, 1922, recorded in Mortgage Book 72, page 178, the principal amount due thereon being the sum of $1900.00; Mechanic's Lien in favor of Effie Ferguson, Administratrix of Paul Ferguson, in the principal sum of $400.00, the same being entered in the Prothonotary's Office in Clearfield County on Mechanic's Lien Docket No. 6, page 428; Mortgage of Orin C. Barger and William E. Spackman to J. T. Murphy dated September 21, 1923 and recorded in Mortgage Book 76, page 143, for the principal som of $7700.00.

The said real estate has erected thereon one concrete block building and includes one oven and furnace.

2. All the interest of the lessee in and to a certain lease for the lot of ground situate on Nichols Street in the Borough of Clearfield, Pa., on which is now erected the store building used in the business of said Quality Bakery, said lease having been made by Hartswick Smith to Orin C. Barger and William E. Spackman the 13th day of October, 1920, for a period of five years from November 1, 1920.

3. All the personal property of every kind whatsoever used in the business of said Quality Bakery and constituting a part thereof; including particularly one building erected on the leased premises above mentioned, one oven, one wrapping machine, one sifter, scales and mixer, one bread moulder, baskets, bread pans, troughs, racks, roll divider, work bench, cake mixer, adding machine, safe, store fixtures and other miscellaneous personal property; there being bailment leases outstanding as to various items of said personal property and only the interest of the lessee in such items being offered for sale.

4. All the accounts receivable, bills receivable, cases in action, rights and credits of every kind and nature whatsoever of the said Quality Bakery whether the same shall have accrued prior to or since the delivery of the deed of trust to J. T. Murphy, Trustee.

This sale is being made by virtue of the power vested in the Trustee by the deed of trust above mentioned, and further by virtue of the consent of fifty per cent. of the total number and amount of the creditors secured by said trust.

The above four items shall be offered for sale separately in the first instance and bids taken thereon and held, whereupon the entire property shall be offered as a whole and the same shall be sold, either by the items above mentioned or as a whole to the highest responsible bidder of bidders.

The terms of the sale shall be twenty-five (25) per cent. cash at the time of sale and the balance upon delivery of conveyances of said property.

J. T. MURPHY
Trustee of the
Quality Bakery. Clearfield, Pa.

Very few women who boss their husbands let them know it.

If everybody had beautiful hands how would work get done?

Never quarrel before company and two's company.

If barber shop mirrors talked to beauty parlor mirrors they would say the same things.

Men who object to hair in their food should always marry bald-headed women.

Enemies are friends you made the mistake of losing.

A man is usually considered ignorant because he doesn't happen to know the same things you happen to know.

A model husband is one who is as nice to his wife in private as he is before company.

Poor little movie stars, several of them haven't been married again yet.

You can't expect people to be cheerful at breakfast with their faces looking as if they had been slept in.

Wonder if a divorce ever resulted from a man finding another man's hair on his rolling pin.

Snakes have longer wheel bases than any other known living animal.

You can tell a bungalow from a garage by remembering the garages have the largest doors.

It is easy to keep a secret until you get a chance to tell it.

Straw hats are top pieces that look bad by the time they feel good.

Expecting nothing is an excellent way to get nothing.

A lot of folks would like to have a map of the road to wisdom.

The man who gets by on his looks isn't going very far.

It's a natural mistake for a housewife to blame a baking failure on the cook book.

Sad thing about feeling bad is you can't leave and get away from it.

A lot of autos have all of the regular attachments, plus a sheriff's.

The girl who buys a bathing suit often wants the least she can get for her money.

Three cheers for the filling station that furnishes water and gas with out mixing them.

Be careful what you pin your faith to or you will get stuck.

It is a wise young fellow who dances with the chaperon.

Many men claim they tell their wives everything, when they don't even know it.

Marriage Licenses

Aubrey Shaw, of Rosebud, and Olive Smeal of Glen Hope.

Harold W. Hildebrand, of Birmingham, and Mirrel I. Bonsall, of Spruce Creek.

Archibald Muirhead, of Winburne, and Esther Sandstrom, of Lanse.

Site of Bauer Crime Is Scene of Another Even Worse Than The First

New York, July 16. (INS.)—The entire police force of Staten Island and more than 100 detectives from police headquarters here today were combing the woods and swamps in Staten Island in search of the fiend who brutally assaulted and murdered eight-year-old Francis P. McDonald, of Port Richmond, a policeman's son, and then buried his mangled little body under a pile of underbrush.

The body was found not less than a mile away from the spot in the Chelsea woods where Mrs. Maude A. Bauer was murdered last spring. Harry L. Hoffman, moving picture operator, is serving a 20-year sentence in Sing Sing for the crime.

The body had been stripped of most of his clothing. The straps of his overalls had been used to strangle him. Deep gashes ran the length of his face and other scratches were found on his arms and body.

Imprints around the spot where his body was discovered by three Boy Scouts indicated he battled for his life.

The boy had been missing since Monday afternoon and police had been scouring the woods in search of him.

George Stearns, a neighbor, told police that he had seen an elderly man muttering to himself, follow the lad toward the spot where the body was found.

Police were interviewing inmates of the poor farm not far from the scene of the murder.

WILL BE BURIED AT BIGLER

Abram Hummel, of Philipsburg, died at his home in that place Tuesday morning. The funeral will be held Friday afternoon at 1:30 o'clock and interment will be made at Bigler cemetery.

LEGION COMMANDER

"A 'ROUGH and ready' Irishman with a merry twinkle in his eye—

"So old-fashioned that he even wears suspenders—

"A man who talks straight out in a simple, homey manner that proves his bucolic upraising—

"That's the kind of a man the Legion now has in John R. Quinn, its national commander.

"Legionnaires who have the good fortune to get into close personal touch with this big, manly Californian who directs the affairs of the great organization of former soldiers in the entire world, are charmed by John R. Quinn's simplicity, his roughness and the innate honesty and doggedness of purpose which radiates from his person."—Douglas County (Nebraska) Legionnaire.

DR. ORLANDO PETTY CITED FOR BRAVERY

Unusual heroism by a Philadelphia physician who remained for hours under fire in his dressing station during the battle of Belleau Wood and then carried a wounded officer on whom he had been operating to safety when the station was destroyed, has been rewarded with an award of the Congressional Medal of Honor by the government.

The man who is thus signally honored, says the Philadelphia Ledger, is Capt. Orlando H. Petty, attached during the war to the Naval Medical corps.

Doctor Petty enlisted in the naval reserves, four days before the United States entered the war. He left with the Fifth regiment marines. With the "Devil Dogs," he saw fierce fighting from June, 1918, until late in the summer. On June 11 he performed the deed which won for him the medal.

Under a heavy shell fire, he worked in his dressing station until it literally fell in flames over his head, when he escaped to a place of safety with the wounded officer on his back.

He was severely gassed, and was in the hospital many days, but he mastered, long before having entirely recovered, upon returning to duty. He was cited for bravery because of the action.

Doctor Petty was the only member of the Medical Reserve corps during the war to receive a Congressional Medal of Honor. He also was awarded the Distinguished Service Cross of the United States and the Croix de Guerre with palm, of France.

Recently he was appointed physician in charge of the department of metabolism of the Philadelphia General hospital and elected to the professorship of diseases of metabolism in the graduate school of medicine of the University of Pennsylvania.

Doctor Petty is a graduate of Franklin college and the Jefferson Medical college. For several years he was pathologist and director of laboratories at the Germantown hospital. He is a member of the Pennsylvania society, Sons of the Revolution, of the Aesculapian and Manufacturers' clubs, and is a fellow of the College of Physicians of Philadelphia, and of the American College of Physicians.

Legion Boys Condemn School Board's Action

Action taken by the Macon (Ga.) city board of education in barring "Young" Stribling, a professional prize fighter, from completing high school work has been condemned by American Legion members in that city.

Stribling attended Lanier high school, but was dropped by the board because of his professional athletics. He has appeared under the auspices of a number of Legion posts in benefit boxing shows.

Disabled Veterans' Clinic

A disabled veterans' clinic for Cedar Rapids, Ia., has been sought by members of the American Legion in that city, according to post officials. Under the recommendations of the Legion, the clinic would be in the main for examination of tuberculous patients, in order to make available the services of a competent staff of sanitarium physicians located in the city.

To Help Sell Land

The American Legion in Umatilla county, Oregon, has offered to join with commercial organizations in the sale of lands to colonize the Teel irrigation district, if the project is approved by the state. A proposal has been made before the state irrigation and securities commissions to sell the land in farm units of 80 acres. The total tract is 10,500 acres.

To Help New Legion Home

A dollar from each member of the Woman's Relief corps in Blackwell, Okla., will be given annually to the American Legion. The local post is erecting a new home and the women's organization decided to make this donation in order to help the fund. One hundred and fifty members of the corps contributed to the fund.

Essay Contest

"The American Legion as a Community Asset" is the subject of an essay contest authorized in North Adams, Mass., by the Frank R. Stetson post of the American Legion. Special cash prizes have been announced for the best essay submitted by school children of high and grammar schools.

PREMIER MacDONALD OKEYS DAWES PLAN IN OPENING SPEECH

London, July 16. (INS.)—The London Allied Conference, the fifteenth since the treaty of Versailles was drawn, opened at 11:30 this morning in Downing street, and after a two hour session adjourned to allow three committees to draw up reports on various phases of the Dawes report for which the present conference will attempt to devise a practical plan of operation.

Representatives of the ten nations participating made short addresses of optimistic tone. Premier Ramsay MacDonald of England was elected chairman of the meeting and opened with a plea that the conference abandon political considerations for business-like methods.

"The Dawes plan is business-like and not political," he said. "I appeal to you to follow a similar course."

DEFENSE WILL MAKE NO FREEDOM PLEA FOR FRANK KILLERS

Chicago, July 15.—In a frank statement of pleas, Clarence Darrow, chief of defense counsel for Nathan Leopold, Jr., and Richard Loeb confessed slayers of Robert Franks, declared today "that no attempt will be made to free the two defendants" at the coming trial.

"Boys charged with such a crime as this," continued Mr. Darrow, "should not be allowed to go free for fear they might commit another similar crime. There seems to have been no earthly reason for it. The 'excitment" motive has made this an unusual case which requires unusual procedure."

"This case," said Darrow in his startling pronouncement as spokesman for the boys, "has been likened to the Thaw case. It may be in some respects but it is different in the great point of disposition of the defendants. Strenuous efforts, that were successful after many years, were continually made to give Harry Thaw his liberty. In this case no effort will be made to free these boys.

"In fact, if we are successful in our efforts to have the case settled by a sanity hearing, there will be no effort to acquit them."

AMERICAN CONSUL REFUSED WARSHIP

Montevideo, Uruguay, July 16 (INS)—The American Consul at Santos, Brazil, reported threatened by the revolutionary forces, has asked his government to send warship there immediately to protect American lives and property? According to private messages reaching this city from Santos. The situation is regarded as most serious, it is said.

Washington, July 16 (INS.)—The State Department today turned down an appeal from the American consul at Santos, Brzil, for American warships to protect foreign interests in the Brazilian revolution. The appeal was forwarded here by the American Embassy at Rio de Janeiro without approval.

Embassy officials reported that foreign life and property in Brazil were being given "adequate protection" and that there existed no need for the presence of American warships, the department indicated, however, it would order to the South American Republic when their presence was justified.

ABRAHAM HUMMEL DIES FROM STROKE

Seized with a pain in the head at his home on North Second street, Philipsburg nout 11 o'clock Monday night, Abraham Hummel expired at 5 o'clock Tuesday morning. The attending physician diagnosed his illness, which so swiftly proved fatal, as a stroke of apoplexy.

All day Monday he worked at the farm owned by Dr. W. B. Henderson, where he has been employed for the last three weeks. Returning from his work he ate a hearty supper and made no complaint of feeling unwell, though he said he was tired.

Mr. Hummel was born near Bigler Feb. 12, 1848. He was the son of Mr. and Mrs. Conrad Hummel. For years he worked at the brick plants along the Tyrone and Clearfield branch of the Pennsylvania railroad. About 18 months ago he and his family came to Philipsburg to live.

The deceased was twice married and was the father of ten children, nine sons and one daughter, and all of them are living, along with his second wife, who was Miss Laura Curley. The names of the children and the places where they live are as follows: Alton, of Curwensville; Emery, of Clearfield; Joseph, of Troy; Tobin, of Wallaceton; Collins, of Morgan Run; Charles, of Curwensville; William, of Blue Ball; Patrick, of Philipsburg; Preston, at home, and Mrs. Charles Singer, of Pleasant Hill. There are 17 grandchildren.

After going to Philipsburg, Mr. Hummel united with the Church of Christ. Though not so well known in Philipsburg because of his comparatively brief residence here, he had many acquaintances and friends in the Bigler region. He was industrious and honest.

The funeral will be held Friday afternoon at 1:30 o'clock. Interment at Bigler.

Cultivate a Note Book.

Carry a note book and pencil in your hand bag, and have one or more handy in the house. Then you may accumulate a store of information on every subject of feminine interest. Little items that we hear have a way of escaping our memory.

Observation of Oldest Inhabitant.

The old-fashioned way of courting in a hammock has one advantage over the modern motor courtships. When there was a breakdown you didn't have to walk ten miles back home.—Cincinnati Enquirer.

Acme of "Nothing to Worry About."

What are a few thousand hairs more or less, except to persons whose hairs have been numbered? Professors counted the hairs on the heads of an entire class of men and women in Munich university, a recent dispatch from Berlin stated. The arduous research disclosed that the men had from 40,000 to 50,000 hairs; the women from 60,000 to 70,000. Counting at the rate of one hair a second, it would take one professor more than 19 hours to number 70,000.

We don't recommend the taste, but you can eat Blue Devil Cleanser without injury.

PENNSY-GRAMS

Pittsburgh.—Mrs. Cow is out on bail and Patrolman Hugh Lane is suffering bruises today as the result of the cow resisting the officer when he wanted to "pinch" her for wandering the streets. Bossie, according to Lane "has a mean hoof" and planted it on Hugh's rear guard, then she followed it up with a swat on the policeman's nose with her tail. The cow was taken to the city's stables and her owner released her on bail.

Pittsburgh. — Joseph B. Clancey, alias Joseph B. Snyder, 21, said to live at 1243 Allison avenue, Philadelphia, is being held here today by police as a suspicious person.

Clancey, according to police, has served in several penitentiaries in the country and is said to be a clever bad check writer. He told police that he came here to make one last cleanup before "going straight" because he was in love with a Pittsburghe girl and intended marrying her.

Pittsburgh.—Police Superintendent Edward J. Brophy has ordered a big shakeup in the local police department. Twenty-eight lieutenants, 38 patrolmen and 4 matrons were transferred today "for the good of the service" according to Brophy.

Middletown.—"Ouch" quoth a member of the state police as he stumbled over a box in a corn field on the farm of John Huss. The box covered an underground chamber containing a 50-gallon still, 60 gallons of moonshine, and 350 gallons of mash. Huss and his son were arrested.

Middletown.—Eighteen quarts of alleged whiskey were found carefully hidden under a bed in a large hotel here. Roy Cain, owner of the hotel, is held.

Pittsburgh, Pa., July 16. (INS.)—Dominick Argenteria, 28, was crushed to death and two other employes of the Jones and Laughlin Steel Corporation were injured at Eliza Furnace today when a sheet of steel slipped from its hoistings and pinned the men beneath it.

Home-Made Floor Oil.

One part boiled linseed oil thinned with three parts turpentine makes a good floor oil, says the Scientific American; while one part light, highly refined engine oil combined with four parts kerosene gives results similar to commercial kinds.

In a Wilderness.

Leave the floor of the osemite valley and you are in the wilderness; there are a thousand square miles of wild high Sierra country in the park, says the American Forestry Magazine. It is the virgin highland region, much of it almost unexplored, that is now calling hundreds of the more adventuresome tourists to the trails of the back country.

Home never was so sweet before—Blue Devil Cleanser hits the bottom. Softener.

THREE BURNED WHEN FIRE DESTROYS HOME

Altoona, Pa., July 16. (INS.)—Three persons were burned, one seriously, when the home of Charles McClellan at Glanierville, near here, was burned to the ground today.

McClellan, his wife, and six children saved themselves by jumping from the second story window. Mrs. McClelland, her daughter Virginia, aged 5, and Harry McClellan, 45, their cousin, received burns. The latter is said to be in a serious condition.

Fish as Personal Decoration.

The natives of Nauru in the Pacific make use of fish for personal adornment on many occasions, especially for the "fish dance." The fish in that locality are very brilliant and are tied in great numbers about the person of the natives. Forty or 50 fishes are sometimes strung about each native. After use in this manner they are eaten.

Record Mastodon Tusk.

The largest mastodon tusk ever discovered was found by workmen 40 feet below the surface of the earth in a gravel pit at Cincinnati—weight 75 pounds; seven feet from tip to tip.

Blue Devil Cleanser hits the bottom, others skim the top.

It's Singin' That Hurts.

When a man of sixty gets into a reminiscent mood, he can be forgiven for recalling the songs of his youth if he doesn't try to sing them, remarks the Somerville Journal.

British Metropolis Ancient City.

London is at least as old as the Roman conquest of Britain (43 A. D.), and there was probably an old British town in the same place before the Romans made an important city of it.

"I am given the best meats, fish, poultry, vegetables, fruits and other foods and told to produce the best results possible in the culinary aart. I cook scientifically and often introduce palatable dishes of my own invention, which, apparently please our patrons. With the best of everything offered, we succeed."

JORDAN'S

Clover Failure Is Due to Many Causes

Ailments of Crop Discussed in Bulletin Just Issued.

(Prepared by the United States Department of Agriculture.)

That the decline in red-clover culture is no myth becomes abundantly evident when one reads the agricultural literature of the past 40 years. Letters from farmers to the agricultural press and articles by farmers and by the experiment station workers in the press all express concern regarding this condition and offer various reasons and remedies. The United States Department of Agriculture has been alive to the necessity of solving the problem of clover failure, and has set forth its observations as to the causes as well as suggestions for more favorable results, in Farmers' Bulletin 1365, Clover Failure, just issued.

Causes of clover failure, says the department, are to be sought in improper soil conditions, in diseases, in the use of nonadaptable seed or in improper methods of seeding, and in the use of harmful nurse crops. Improper soil conditions result from constant cultivation and the consequent loss of lime, phosphates, potash and organic matter, making the soil unsuited to the growth of clover. Such conditions can be remedied by applying the elements lacking in a field and by working in manure and other forms of organic matter.

In some cases clover failure is due to diseases, and then a disease-resistant variety must be used if available, or some other legume substituted for red clover. Alsike clover, hairy vetch or annual summer legumes, such as soy beans, should be used when for any reason land that needs lime cannot be economically limed. When red clover fails on land well supplied with lime, sweet clover can often be substituted to advantage.

A copy of the bulletin may be secured as long as the supply lasts, from the United States Department of Agriculture, Washington, D. C.

FARM FACTS

Seed time is here.

* * *

Reforestation today is preparation for tomorrow.

* * *

The first essential for success with red clover is: Good northern grown seed.

* * *

High-priced seed is not always good seed, but low-priced seed can never be good seed.

* * *

Wise Nature meant leaves and other vegetation to decay and enrich the soil. Why be foolish and burn it?

* * *

Hubam clover has some advantage in that it will probably make a larger growth the first year than does the biennial white sweet clover.

Keeping Fountain Pens Fit.

If your fountain pen does not work well, it is probably clogged with old ink. Pens should be washed out in warm water every now and then to remove the little bits of solid matter that are apt to settle on the nib and in the feed tubes. Never use ordinary writing ink in a fountain pen. Use an ink made specially for the purpose.

Musical Taste.

A walking tourist espied an old man seated in the doorway of a cottage, fiddling utterly regardless of time and tune. Stopping for a while to listen in amusement, the tourist at last asked: "When do you tune your violin?" "I don't," was the reply. "It don't sound right if I tune it."

Softer Than Rose Leaves.

According to a Greek writer, effeminate dandies in ancient Greece sometimes slept on beds of sponge.

TOILET POWDERS

And when we say powders we mean everything whether it is in cake or powder form. We have the powders and the fillers for your compact in many pleasingly perfumed forms.

Mrs. Elmer Warner is entertaining her bridge club tonight.

Miss Ethel Jedlis of Detroit, is spending her vacation by visiting Mrs S. J. Chapel on Daisy street.

Mrs. H. B Scott, Mrs. George Scott, Mrs. W. C. Berklinser, Miss Elizabeth Kingston and Jimmie Scott of Philipsburg were all in Clearfield yesterday.

Didn't Know His Brother

"My brother got so bad with stomach and liver trouble that when I saw him after a year I didn't know him. He was emaciated and yellow as a pumpkin and was often in great pain. He couldn't have lived long the way he was going. Doctors and medicine gave him no relief. I picked up a little booklet on Mayr's Wonderful Remedy, which he said described his case perfectly. The first dose of it gave him great relief and in a month he was good as ever." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

At all Druggists.

Cresson, Pa., July 14—George W. Dewalt, 70 years old, of Fairfield, died here suddenly of a heart attack at the home of his nephew, Ralph A. Dewalt, in Gallitzin road. Dewalt was visiting his nephew when stricken. He was a native of Clearfield county. Dewalt's wife died fourteen years ago and all his children passed away several years ago. He is survived by three grandchildren, Mrs. Irving Shaw of Clearfield; Cecelia Dewalt, of Irvona, and Gordon Dewalt, of Clearfield, and by two sisters, Mrs. W. L. Mull of Glen Hope and Mrs. Catherine Wright, of Akron, Ohio. Funeral services were held at the home of his late nephew Tuesday morning at 10 o'clock. Rev. D. M. Lyle, pastor of the Cresson Presbyterian church, officiated. The body will then be taken overland to Clearfield and on arrival of Dewalt's relatives buried in the Hillcrest cemetery.

SPECIAL SWIMMING HOURS AT Y. M. C. A.

Several temporary changes are made at this time during the Bible Study Institute, so that all the boy and girl members can enjoy the swimming classes at the Y. M. C. A. The Junior boys class will be at eleven o'clock on Monday, Wednesday and Thursdays. The Junior Girls' class will hold forth at eleven o'clock on Tuesdays and Fridays.

EDITOR LANDS A PLUM

Harrisurg, July 15—The appointment of Frank E. oWod, a Sayre editor as Director of Publications and Deputy Secretary of the Department of Property Supply was announced today. Wood succeeds A. Nevin Detrich of Philadelphia, who resigned last January.

Time to Save Money!

Some folks subscribe for a farm paper, a woman's magazine, a radio publication and a fiction magazine. But

The COUNTRY GENTLEMAN

for only $1.00 a year—less than two cents a week—combines *all four features* that those folks are paying at least $6.00 for. *It's four magazines in one!*

Big farm news of the United States and the world at large; national and state politics; new ideas on selling at a profit; cooperative organization; *money-saving crop methods!*

A woman's department that is *the only woman's weekly;* how the country can be made a better place to live in; a regular radio department; serial stories that will sell later for $2.00 in book form, by such authors as Zane Grey and Joseph C. Lincoln. A corking good short story every week!

May I send your order now? I'd be glad to.

KEYSTONE ICE CREAM

Remark of John Adams Dix.

John Adams Dix, American statesman and general, made the remark, "If anyone attempts to haul down the American flag, shoot him on the spot." This was a part of a telegram sent from Washington Jan. 29, 1861, ordering the arrest, at New Orleans of Captain Breshwood, the commander of the revenue cutter McClennand, which it was feared he would turn over to the rebels.

Nerves Beginning Early.

Mary's little brother had broken doll's house and done other naughty things, until at last she gave way to her exasperation and slapped him. Asked to explain her conduct, she said, "Well, he's been getting on my temper all day till my nerves just flew at him."—Boston Transcript.
